Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

History

On June 20, 2017, the FAA published a final rule in the **Federal Register** (82 FR 27988) Docket No. FAA-2016-9476 establishing Class E en route airspace extending upward from 1,200 feet above the surface at Sacramento, CA. Afterwards, the FAA found that the airspace area for NASA Crows Landing, CA, is now contained within the en route airspace area for the Sacramento, CA, area. Therefore, the airspace designation for Crows Landing would be removed from FAA Order 7400.11B.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by removing Class E airspace extending upward from 1,200 feet above the surface at Crows Landing Airport, Crows Landing, CA. The existing airspace area designated for Crows Landing airport is wholly contained within the Sacramento en route airspace area, and duplication is not necessary.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11B, dated August 3, 2017

and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

14 CFR Part 71

[Docket No. FAA-2017-0865; Airspace Docket No. 17-ASO-19]

Proposed Amendment of Class D Airspace and Class E Airspace; Biloxi, MS, and Gulfport, MS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class D airspace, Class E surface airspace, Class E airspace designated as an extension (by removing NOTAM part-time status), and Class E airspace extending upward from 700 feet above the surface at Keesler Air Force Base (AFB), Biloxi, MS, and Gulfport-Biloxi International Airport, (formerly Gulfport-Biloxi Regional Airport), Gulfport, MS. The geographic coordinates for these airports and the Keesler TACAN navigation aid would be adjusted in the associated Class D and E airspace to match the FAA's aeronautical database. Also, an editorial change would be made to the Class E extension airspace legal descriptions replacing "Airport/Facility Directory" with the term "Chart Supplement" for these airports. This action would enhance the safety and management of instrument flight rules (IFR) operations at these airports.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class D and Class E airspace at Keesler AFB, Biloxi, MS, and Gulfport-Biloxi International Airport, Gulfport, MS, to support IFR operations at these airports.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective

September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 by amending Class D airspace and Class E airspace designated as an extension, at Keesler AFB, Biloxi, MS, and Gulfport-Biloxi International Airport (formerly Gulfport-Biloxi Regional Airport, Gulfport, MS), by removing the part-time Notice to Airmen (NOTAM) status of each airport.

This proposal also would amend the geographic coordinates of these airports and the Keesler TACAN navigation aid to be in concert with the FAA's aeronautical database.

This action also notes the airport name change of Gulfport-Biloxi International Airport from Gulfport-Biloxi Regional Airport.

Finally, this action would replace the term "Airport/Facility Directory" with the term "Chart Supplement" in the legal descriptions for Keesler AFB, and Gulfport-Biloxi International Airport, in Class D and Class E surface airspace.

Class D and E airspace designations are published in Paragraphs 5000, 6002, 6004 and 6005, respectively of FAA Order 7400.11B, dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designation listed in this document will be published subsequently in the Order.
