BILLING CODE 3510-07-P

DEPARTMENT OF COMMERCE

International Trade Administration

Proposed Information Collection; Comment Request; Surveys for User Satisfaction, Impact and Needs

AGENCY: International Trade Administration, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before April 30, 2018.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the internet at PRACOMMENT@DOC.GOV).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Joe Carter—Office of Strategic Planning, 1999 Broadway—Suite 2205, Denver, CO 80220, (303) 844-5656, joe.carter@trade.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration provides a multitude of international trade related programs to help U.S. businesses. These programs include information products, services, and trade events. To accomplish its mission effectively, ITA needs ongoing feedback on its programs. This information collection item allows ITA to solicit clients' opinions about the use of ITA products, services, and trade events. To promote optimal use and provide focused and effective improvements to ITA programs, we are requesting approval for this clearance package; including: Use of Comment

Cards (*i.e.*, transactional-based surveys) to collect feedback immediately after ITA assistance is provided to clients; use of annual surveys (*i.e.*, relationship-based surveys) to gauge overall satisfaction, impact and needs for clients with ITA assistance provided over a period time; use of multiple data collection methods (*i.e.*, web-enabled surveys sent via email, telephone interviews, automated telephone surveys, and in-person surveys via mobile devices/laptops/tablets at trade events/shows) to enable clients to conveniently respond to requests for feedback; and a forecast of burden hours. Without this information, ITA is unable to systematically determine the actual and relative levels of performance for its programs and products/services and to provide clear, actionable insights for managerial intervention. This information will be used for program evaluation and improvement, strategic planning, allocation of resources and stakeholder reporting.

II. Method of Collection

The International Trade Administration is seeking approval for the following data collection methods to provide flexibility in conducting customer satisfaction surveys and to reduce the burden on respondents: (1) An email message delivering a hot link to a web enabled survey with an email reminder sent if the client does not respond to the survey within two weeks; (2) a telephone survey/interview; and (3) a web-enabled survey conducted in-person at trade shows/events via a laptop, tablet or mobile phone so participants can immediately respond without having to provide their email address.

III. Data

OMB Control Number: 0625-0275.

Form Number(s): ITA-XXXX.

Type of Review: Regular.

Affected Public: Business or other for-profit organizations; Not-for-profit institutions; State, Local, or Tribal government; and Federal government.

Estimated Number of Respondents: 50,000.

Estimated Time per Response: 5-30 minutes.

Estimated Total Annual Burden Hours: 25,000 hours.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden

(including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer.

International Trade Administration

[A-428-820]

Certain Small Diameter Seamless Carbon and Alloy Standard, Line and Pressure Pipe From Germany: Continuation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC) that revocation of the antidumping duty (AD) order on certain small diameter seamless carbon and alloy standard, line and pressure pipe (seamless pipe) from Germany would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, Commerce is publishing a notice of continuation of the AD order.

DATES: Applicable February 28, 2018.

FOR FURTHER INFORMATION CONTACT: John McGowan, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3019.

SUPPLEMENTARY INFORMATION:

Background

On August 1, 2017, Commerce published the notice of initiation of the fourth sunset review of the AD order on seamless pipe from Germany, pursuant to section 751(c) of the Tariff Act of

1930, as amended (the Act).¹ As a result of the review, Commerce determined that revocation of the AD order would likely lead to a continuation or recurrence of dumping.² Commerce, therefore, notified the ITC of the magnitude of the dumping margins likely to prevail should the AD order be revoked. On February 20, 2018, the ITC published notice of its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the AD order on seamless pipe from Germany would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.³

Scope of the Order

The scope of the order includes small diameter seamless carbon and alloy standard, line and pressure pipes (seamless pipes) produced to the ASTM A-335, ASTM A-106, ASTM A-53 and API 5L specifications and meeting the physical parameters described below, regardless of application. The scope of the order also includes all products used in standard, line, or pressure pipe applications and meeting the physical parameters below, regardless of specification.

For purposes of the order, seamless pipes are seamless carbon and alloy (other than stainless) steel pipes, of circular cross-section, not more than 114.3 mm (4.5 inches) in outside diameter, regardless of wall thickness, manufacturing process (hot-finished or cold-drawn), end finish (plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish. These pipes are commonly known as standard pipe, line pipe or pressure pipe, depending upon the application. They may also be used in structural applications. Pipes produced in non-standard wall thicknesses are commonly referred to as tubes.

The seamless pipes subject to the order are currently classifiable under subheadings 7304.19.10.20, 7304.19.50.20, 7304.31.60.50, 7304.39.00.16, 7304.39.00.20, 7304.39.00.24, 7304.39.00.28, 7304.39.00.32, 7304.51.50.05,

7304.51.50.60, 7304.59.60.00, 7304.59.80.10, 7304.59.80.15, 7304.59.80.20, and 7304.59.80.25 of the Harmonized Tariff Schedule of the United States (HTSUS).

The following information further defines the scope of the order, which covers pipes meeting the physical parameters described above:

Specifications, Characteristics, and Uses: Seamless pressure pipes are intended for the conveyance of water, steam, petrochemicals, chemicals, oil products, natural gas and other liquids and gasses in industrial piping systems. They may carry these substances at elevated pressures and temperatures and may be subject to the application of external heat. Seamless carbon steel pressure pipe meeting the American Society for Testing and Materials (“ASTM”) standard A-106 may be used in temperatures of up to 1000 degrees Fahrenheit, at various American Society of Mechanical Engineers (“ASME”) code stress levels. Alloy pipes made to ASTM standard A-335 must be used if temperatures and stress levels exceed those allowed for A-106 and the ASME codes. Seamless pressure pipes sold in the United States are commonly produced to the ASTM A-106 standard.

Seamless standard pipes are most commonly produced to the ASTM A-53 specification and generally are not intended for high temperature service. They are intended for the low temperature and pressure conveyance of water, steam, natural gas, air and other liquids and gasses in plumbing and heating systems, air conditioning units, automatic sprinkler systems, and other related uses. Standard pipes (depending on type and code) may carry liquids at elevated temperatures but must not exceed relevant ASME code requirements.

Seamless line pipes are intended for the conveyance of oil and natural gas or other fluids in pipe lines. Seamless line pipes are produced to the API 5L specification.

Seamless pipes are commonly produced and certified to meet ASTM A-106, ASTM A-53 and API 5L specifications. Such triple certification of pipes is common because all pipes meeting the stringent A-106 specification necessarily meet the API 5L and ASTM A-53 specifications. Pipes meeting the API 5L specification necessarily meet the ASTM A-53 specification. However, pipes meeting the A-53 or API 5L specifications do not necessarily meet the A-106 specification. To avoid maintaining separate production runs and separate inventories, manufacturers triple certify the pipes. Since distributors sell the vast

majority of this product, they can thereby maintain a single inventory to service all customers.

The primary application of ASTM A-106 pressure pipes and triple certified pipes is in pressure piping systems by refineries, petrochemical plants and chemical plants. Other applications are in power generation plants (electrical-fossil fuel or nuclear), and in some oil field uses (on shore and off shore) such as for separator lines, gathering lines and metering runs. A minor application of this product is for use as oil and gas distribution lines for commercial applications. These applications constitute the majority of the market for the subject seamless pipes. However, A-106 pipes may be used in some boiler applications.

The scope of the order includes all seamless pipe meeting the physical parameters described above and produced to one of the specifications listed above, regardless of application, and whether or not also certified to a non-covered specification. Standard, line and pressure applications and the above-listed specifications are defining characteristics of the scope of the order. Therefore, seamless pipes meeting the physical description above, but not produced to the A-335, A-106, A-53, or API 5L standards shall be covered if used in a standard, line or pressure application.

For example, there are certain other ASTM specifications of pipe which, because of overlapping characteristics, could potentially be used in A-106 applications. These specifications generally include A-162, A-192, A-210, A-333, and A-524. When such pipes are used in a standard, line or pressure pipe application, such products are covered by the scope of the order.

Specifically excluded from the order are boiler tubing and mechanical tubing, if such products are not produced to A-335, A-106, A-53 or API 5L specifications and are not used in standard, line or pressure applications. In addition, finished and unfinished oil country tubular goods (“OCTG”) are excluded from the scope of the order, if covered by the scope of another antidumping duty order from the same country. If not covered by such an OCTG order, finished and unfinished OCTG are included in the scope when used in standard, line or pressure applications. Finally, also excluded from the order are redraw hollows for cold-drawing when used in the production of cold-drawn pipe or tube.

Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

¹ See *Initiation of Five-Year (Sunset) Reviews*, 82 FR 35748 (August 1, 2017).

² See *Certain Small Diameter Seamless Carbon and Alloy Standard, Line and Pressure Pipe from Germany: Final Results of the Expedited Fourth Sunset Review of the Antidumping Duty Order*, 82 FR 57577 (December 6, 2017) (*Final Results*).

³ See *Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from Germany: Investigation No. 731-TA-709 (Fourth Review)*, USITC Publication 4760 (February 2018); see also *Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from Germany*, 83 FR 7217 (February 20, 2018).

Continuation of the Order

As a result of the determinations by Commerce and the ITC that revocation of the AD order would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), Commerce hereby orders the continuation of the AD order on seamless pipe from Germany.

U.S. Customs and Border Protection will continue to collect AD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of the order will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, Commerce intends to initiate the next five-year sunset review of the order not later than 30 days prior to the fifth anniversary of the effective date of continuation.

This five-year sunset review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: February 23, 2018.

Prentiss Lee Smith,

Deputy Assistant Secretary for Policy and Negotiations.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Open Meeting of the Information Security and Privacy Advisory Board

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: The Information Security and Privacy Advisory Board (ISPAB) will meet Thursday, March 15, 2018 from 9:00 a.m. until 5:00 p.m., Eastern Time, and Friday, March 16, 2018 from 9:00 a.m. until 4:30 p.m. Eastern Time. All sessions will be open to the public.

DATES: The meeting will be held on Thursday, March 15, 2018, from 9:00 a.m. until 5:00 p.m., Eastern Time, and Friday, March 16, 2018, from 9:00 a.m. until 4:30 p.m. Eastern Time.

ADDRESSES: The meeting will be held at the American Institute of Architects, 1735 New York Ave. NW, Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: Matthew Scholl, Information

Technology Laboratory, NIST, 100 Bureau Drive, Stop 8930, Gaithersburg, MD 20899-8930, Telephone: (301) 975-2941, Email address: mscholl@nist.gov.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act, as amended, 5 U.S.C. App., notice is hereby given that the Information Security and Privacy Advisory Board (ISPAB) will meet Thursday, March 15, 2018, from 9:00 a.m. until 5:00 p.m., Eastern Time, and Friday, March 16, 2018 from 9:00 a.m. until 4:30 p.m. Eastern Time. All sessions will be open to the public. The ISPAB is authorized by 15 U.S.C. 278g-4, as amended, and advises the National Institute of Standards and Technology (NIST), the Secretary of Homeland Security, and the Director of the Office of Management and Budget (OMB) on information security and privacy issues pertaining to Federal government information systems, including thorough review of proposed standards and guidelines developed by NIST. Details regarding the ISPAB's activities are available at <http://csrc.nist.gov/groups/SMA/ispab/index.html>.

The agenda is expected to include the following items:

- Deliberations and recommendations by the Board on security and privacy issues,
- Presentation and discussion on cybersecurity standards used for the Internet of Things,
- Briefing on the Distributed Denial of Service Report directed by Executive Order 13800,
- Presentation and discussion on the White House Information Technology Modernization Report action items,
- Presentation and discussion on the current update to the Cybersecurity Framework,
- Presentation and discussion on bias in machine learning and artificial intelligence systems,
- Presentation and discussion on cybersecurity workforce initiatives,
- Presentation on the Department of Homeland Security Continuous Diagnostic and Mitigation Program, and
- Updates on NIST Information Technology Laboratory cybersecurity work.

Note that agenda items may change without notice. The final agenda will be posted on the website indicated above. Seating will be available for the public and media. Pre-registration is not required to attend this meeting.

Public Participation: The ISPAB agenda will include a period, not to exceed thirty minutes, for oral comments from the public (Thursday,

March 15, 2018, between 4:30 p.m. and 5:00 p.m.). Speakers will be selected on a first-come, first-served basis. Each speaker will be limited to five minutes. Questions from the public will not be considered during this period. Members of the public who are interested in speaking are requested to contact Matthew Scholl at the contact information indicated in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

Speakers who wish to expand upon their oral statements, those who had wished to speak but could not be accommodated on the agenda, and those who were unable to attend in person are invited to submit written statements. In addition, written statements are invited and may be submitted to the ISPAB at any time. All written statements should be directed to the ISPAB Secretariat, Information Technology Laboratory, 100 Bureau Drive, Stop 8930, National Institute of Standards and Technology, Gaithersburg, MD 20899-8930.

Kevin Kimball,

NIST Chief of Staff.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Establishment of a Team Under the National Construction Safety Team Act

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice.

SUMMARY: The Director of the National Institute of Standards and Technology (NIST), United States Department of Commerce, announces the establishment of a National Construction Safety Team pursuant to the National Construction Safety Team Act. The Team was established to study building performance and emergency response and evacuation during Hurricane Maria, which made landfall in the U.S. territory of Puerto Rico on September 20, 2017.

DATES: The National Construction Safety Team was established on February 21, 2018.

ADDRESSES: Dr. Howard Harary, Engineering Laboratory, National Institute of Standards and Technology, Mail Stop 8600, Gaithersburg, MD 20899-8600, telephone number (301) 975-5900. Members of the public are encouraged to submit to the Team non-
