

Paperwork Reduction Act

This rule does not contain information collection requirements, and a submission to the Office of Management and Budget under the Paperwork Reduction Act is not required. The NPS may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

National Environmental Policy Act

This rule does not constitute a major Federal action significantly affecting the quality of the human environment. A detailed statement under the National Environmental Policy Act of 1969 (NEPA) is not required because the NPS intends to categorically exclude this rule under 516 DM 12.5(A)(10). This rule will modify existing NPS regulations in a manner that does not increase public use to the extent of compromising the nature and character of the National Park System or causing physical damage to it. The rule will not conflict with adjacent ownerships or lands uses, or cause a nuisance to adjacent owners or occupants. We have also determined that the rule does not involve any of the extraordinary circumstances listed in 43 CFR 46.215 that would require further analysis under NEPA.

Effects on the Energy Supply (Executive Order 13211)

This rule is not a significant energy action under the definition in Executive Order 13211. A Statement of Energy Effects is not required.

Clarity of This Rule

The NPS is required by Executive Orders 12866 (section 1(b)(12)) and 12988 (section 3(b)(1)(B)), and 13563 (section 1(a)), and by the Presidential Memorandum of June 1, 1998, to write all rules in plain language. This means that each rule the NPS publishes must:

- (a) Be logically organized;
- (b) Use the active voice to address readers directly;
- (c) Use common, everyday words and clear language rather than jargon;
- (d) Be divided into short sections and sentences; and
- (e) Use lists and tables wherever possible.

If you feel that the NPS has not met these requirements, send the NPS comments by one of the methods listed in the **ADDRESSES** section. To better help the NPS revise the rule, your comments should be as specific as possible. For example, you should identify the numbers of the sections or paragraphs that you find unclear, which sections or

sentences are too long, the sections where you feel lists or tables would be useful, etc.

Public Participation

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments regarding this proposed rule by one of the methods listed in the **ADDRESSES** section of this document.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask the NPS in your comment to withhold your personal identifying information from public review, the NPS cannot guarantee that it will be able to do so.

SUPPLEMENTARY INFORMATION:

Background: In the withdrawal of direct final rule published in the **Federal Register** on January 9, 2018 (83 FR 984), EPA stated the intent to institute an extended comment period for the November 14, 2017 proposed rule (82 FR 52682) by publishing a notice of data availability.

Extension of Comment Period: The adverse comment received on EPA's direct final rule requested that EPA hold a new public comment period, because EPA did not make all relevant

EPA has made available all documents, which are compatible with the electronic docket system, at the docket identified by Docket ID No. EPA-R01-OAR-2009-0436 at www.regulations.gov.
