promote native plant communities that are resistant to infestation by invasive plants.

Lead and Cooperating Agencies

The Forest Service will be the lead federal agency in accordance with 40 Code of Federal Regulations (CFR) 1501.5(b) and is responsible for the preparation of the EIS. The Forest Service is in the process of inviting other federal, state, and local agencies to participate as cooperating agencies. At this time, these include the Bureau of Land Management, Natural Resource Conservation Service, U.S. Fish and Wildlife Service, Nevada Departments of Wildlife, Nevada Department of Agriculture and local Conservation Districts. Scoping will determine if any other cooperating agencies are needed.

Responsible Official

The responsible official for this EIS is William A. Dunkelberger, Forest Supervisor, Humboldt-Toiyabe National Forest Supervisor’s Office, 1200 Franklin Way, Sparks, Nevada 89431.

Decision To Be Made

The Forest Supervisor will decide whether to treat invasive plants and conduct restoration activities on the Nevada portion of the HTNF, and if so, what methods and strategies (including adaptive management and EDRR) will be used to contain, control, or eradicate invasive plants.

Permits or Licenses Required

A permit from the State of Nevada would be required prior to use of prescribed fire. Pesticide applicators would be certified as required by the Nevada Department of Agriculture, and all other permits required by regulatory agencies would be obtained prior to implementation.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the EIS. The Forest Service will be seeking information, comments, and assistance from federal, state, and local agencies, American Indian Tribes, as well as other individuals and organizations that may be interested in, or affected by, the proposed project. Comments on the proposed project should be in writing and should be specific to the proposed action, describing as clearly and completely as possible any issues or concerns the commenter has with the proposal. Comments received, including the names and addresses of those who comment, will become part of the public record for this EIS, and will be available on request for public inspection (see 40 CFR 1501.7 and 1508.22; Forest Service Handbook 1900.15, Section 21). For full consideration, scientific articles or other items cited in support of comments should be submitted in their entirety by the commenter. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agency with the ability to provide the respondent with subsequent environmental documents.

Comments that would be most useful are those concerning developing or refining the proposed action, site specific concerns, and those concerns that can help us develop treatments that would be responsive to our goal to control, contain, or eradicate invasive plants.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the Agency’s preparation of the EIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer’s concerns and contentions. Public meetings are anticipated to be held following publication of the Draft Environmental Impact Statement.

Dated: January 9, 2018.

Chris French,
Associate Deputy Chief, National Forest System.

BILLING CODE 3411–15–P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B–14–2018]

Foreign-Trade Zone (FTZ) 158—Vicksburg/Jackson, Mississippi, Notification of Proposed Production Activity, International Converter, (Insulation Facer), Iuka, Mississippi

International Converter (IC) submitted a notification of proposed production activity to the FTZ Board for its facility in Iuka, Mississippi. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on February 23, 2018.

The applicant indicates that it will be submitting a separate application for FTZ designation at the IC facility under FTZ 158. The facility is used for the production of insulation facer using a wet-bond or dry-bond lamination process. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials/ components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt IC from customs duty payments on the foreign-status materials/components used in export production. For foreign-status components subject to antidumping/ countervailing duty (AD/CVD) investigations/orders, the applicant only requests authority to use such components in the company’s export production. On its domestic sales, for the foreign-status materials/components noted below not subject to AD/CVD orders/investigations, IC would be able to choose the duty rates during customs entry procedures that apply to: Printed duplex insulation facer consisting of paper backed with aluminum foil; not printed duplex insulation facer consisting of paper backed with aluminum foil; printed triplex insulation facer, consisting of paper with aluminum foil on either side; not printed triplex insulation facer, consisting of paper with aluminum foil on either side; printed quadruplicate insulation facer, consisting of paper with aluminum foil on either side, and fabric scrim on one outer layer; and, not printed quadruplicate insulation facer, consisting of paper with aluminum foil on either side, and fabric scrim on one outer layer (duty rate ranges from duty-free to 3.7%). IC has indicated that all waste from the lamination process would be exported. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include: Aluminum foil in rolls, 0.000025 inches thick; aluminum foil in rolls, 0.000027 inches thick; aluminum foil in rolls, 0.000285 inches thick; and, nonwoven polyethylene terephthalate scrim fabric, in rolls, 33.84 grams per square meter (duty rate ranges from duty-free to 5.8%). The request indicates that the aluminum foil is subject to AD and CVD investigations if imported from a certain country. The FTZ Board’s regulations (15 CFR 400.14(e)) require that merchandise subject to AD/CVD orders, or items which would be otherwise subject to suspension of liquidation under AD/ CVD procedures if they entered U.S. customs territory, be admitted to the zone in privileged foreign status (19 CFR 146.41). As noted above, the request indicates that any aluminum foil subject to an AD/CVD investigation/order would be used only in production for export.
Public comment is invited from interested parties. Submissions shall be addressed to the Board’s Executive Secretary at the address below. The closing period for their receipt is April 11, 2018. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to April 26, 2018.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230–0002, and in the “Reading Room” section of the Board’s website, which is accessible via www.trade.gov/ftz.

For further information, contact Elizabeth Whiteman at Elizabeth.Whiteman@trade.gov or (202) 482–0473.

Dated: February 27, 2018.
Andrew McGilvray, Executive Secretary.

Foreign-Trade Zones Board

[5–39–2018]

Foreign-Trade Zone 78—Nashville, Tennessee; Application for Subzone; CEVA Freight LLC; Mount Juliet and Lebanon, Tennessee

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the Metropolitan Government of Nashville and Davidson County, grantee of FTZ 78, requesting subzone status for the facilities of CEVA Freight LLC, located in Mount Juliet and Lebanon, Tennessee. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on February 26, 2018.

The proposed subzone would consist of: Site 1 (32.92 acres), three buildings located at 12002, 12008 and 12014 Volunteer Boulevard, Mount Juliet; and, Site 2 (1.70 acres), one building at 1442C Toshiba Dr., Lebanon. No authorization for production activity has been requested at this time. The proposed subzone would be subject to the existing activation limit of FTZ 78.

In accordance with the FTZ Board’s regulations, Kathleen Boyce of the FTZ Staff is designated examiner to review the application and make recommendations to the Executive Secretary. Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board’s Executive Secretary at the address below. The closing period for their receipt is April 11, 2018. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to April 26, 2018.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230–0002, and in the “Reading Room” section of the FTZ Board’s website, which is accessible via www.trade.gov/ftz.

Foreign-Trade Zones Board

Foreign-Trade Zones Board

[B–13–2018]

Foreign-Trade Zone (FTZ) 138—Franklin County, Ohio; Notification of Proposed Production Activity; International Converter (Insulation Facer); Caldwell, Ohio

International Converter (IC) submitted a notification of proposed production activity to the FTZ Board for its facility in Caldwell, Ohio. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on February 23, 2018.

The applicant indicates that it will be submitting a separate application for FTZ designation at the IC facility under FTZ 138. The facility is used for the production of insulation facer using a wet-bond or dry-bond lamination process. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials/components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt IC from customs duty payments on the foreign-status materials/components used in export production. For foreign-status materials/components subject to antidumping/countervailing duty (AD/CVD) investigations/orders, the applicant only requests authority to use such components in the company’s export production. On its domestic sales, for the foreign-status materials/components noted below not subject to AD/CVD orders/investigations, IC would be able to choose the duty rates during customs entry procedures that apply to: Printed duplex insulation facer consisting of paper backed with aluminum foil; not printed duplex insulation facer consisting of paper backed with aluminum foil; printed triplex insulation facer, consisting of paper with aluminum foil on either side; not printed triplex insulation facer, consisting of paper with aluminum foil on either side; printed quadlaminated insulation facer, consisting of paper with aluminum foil on either side, and fabric scrim on one outer layer; and, not printed quadlaminated insulation facer, consisting of paper with aluminum foil on either side, and fabric scrim on one outer layer (duty rate ranges from duty-free to 3.7%). IC has indicated that all scrap/waste from the lamination process would be exported. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include: aluminum foil in rolls, 0.00025 inches thick; aluminum foil in rolls, 0.00027 inches thick; aluminum foil in rolls, 0.000285 inches thick; and, nonwoven polyethylene terephthalate scrim fabric, in rolls, 33.84 grams per square meter (duty rate ranges from duty-free to 5.8%). The request indicates that the aluminum foil is subject to AD and CVD investigations if imported from a certain country. The FTZ Board’s regulations (15 CFR 400.14(e)) require that merchandise subject to AD/CVD orders, or items which would be otherwise subject to suspension of liquidation under AD/CVD procedures if they entered U.S. customs territory, be admitted to the zone in privileged foreign status (19 CFR 146.41). As noted above, the request indicates that any aluminum foil subject to an AD/CVD investigation/order would be used only in production for export.

Public comment is invited from interested parties. Submissions shall be addressed to the Board’s Executive Secretary at the address below. The closing period for their receipt is April 11, 2018. A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230–0002, and in the “Reading Room” section of the Board’s website, which is accessible via www.trade.gov/ftz.
