to people with disabilities. Requests for
sign language interpretation or other
auxiliary aids should be directed to
Craig Cockrell at 301–427–8503, at least
7 days prior to the meeting. A NMFS
representative will attempt to structure
the meeting so that all attending
members of the public will be able to
comment if they so choose, regardless of
the controversial nature of the subject
matter. If attendees do not respect the
ground rules they will be asked to leave
the scoping meeting or conference call.
Because the rulemakings overlap for
some gear types, the public scoping
meetings being held in Panama City, FL,
Manteo, NC, and Manahawkin, NJ will
be held in conjunction with public
scoping meetings for Amendment 11 to
the 2006 Consolidated Atlantic HMS
FMP (shortfin mako shark management
measures). The Amendment 11
presentation will likely be given first
unless polling of the audience indicates
another approach is appropriate. After
each presentation, public comment for
that issue will be received. Meeting
attendees interested in this issue are
couraged to show up at the beginning
of the meeting to help determine the
order of the presentations. The second
presentation will not start any later than
6 p.m.

The process of developing a
regulatory action is expected to take
approximately two years. In addition to
future HMS Advisory Panel input, public
comment and future analyses, there are other relevant events
anticipated that may impact the
development of this regulatory action,
including implementation of a quota
rule for Atlantic bluefin tuna and North
Atlantic albacore, the three-year review
of the IBQ program, and the ICCAT
annual meeting in November 2018.

Until the draft environmental impact analysis and proposed rule are finalized or until other regulations are put into place, the current regulations remain in
effect.
