

docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: EPA contractors will be required to disclose business relationships and corporate affiliations to determine whether EPA's interests are jeopardized by such relationships. Because EPA has the dual responsibility of cleanup and enforcement and because its contractors are often involved in both activities, it is imperative that contractors are free from conflicts of interest so as not to prejudice response and enforcement actions. Contractors will be required to maintain a database of business relationships and report information to EPA on either an annual basis or when each work order is issued.

Form numbers: ICR numbers: EPA ICR No. 1550.11, OMB Control No. 2030-0023.

Respondents/affected entities: Entities potentially affected by this action are businesses or organizations performing contracts for the EPA.

Respondent's obligation to respond: Mandatory to continue performance on the respective contract, in accordance with respective contract clause terms.

Estimated number of respondents: 45 (total).

Frequency of response: 1,245.67 hours per response.

Total estimated burden: 14,652 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: Estimated total annual costs are \$3,214,288.05. This includes an estimated contractor burden cost of \$2,798,168.85 and an estimated agency burden cost of \$416,119.20.

These amounts were calculated using the hours above and the labor rates from the 2017 Bureau of Labor National Mean Statistics and the General Schedule.

Changes in estimates: There is no change in the number of hours in the total estimated respondent burden compared to the ICR currently approved by OMB.

Dated: February 21, 2018.

Kimberly Y. Patrick,
Director, Office of Acquisition Management.
