knowledge content currently covered on the Series 82 examination, since that content will be covered in the requisite SIE examination. In addition, the proposed revisions will further the purposes of the Act by updating the examination program to reflect changes to the laws, rules and regulations covered by the examination and to incorporate the functions and associated tasks currently performed by a Private Securities Offerings Representative.

B. Self-Regulatory Organization’s Statement on B urden on Competition

FINRA does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The updated examination aligns with the functions and associated tasks currently performed by a Private Securities Offerings Representative and tests knowledge of the most current laws, rules, regulations and skills relevant to the laws, rules and regulations incorporated in the SIE examination and the restructuring of the representative-level examinations as part of the proposed rule change to restructure the FINRA representative-level qualification examination program.24

approximately 178 amendments made annually by transfer agents to their Form TA–1 as required by Rule 17Ac2–1(c) to address information that has become inaccurate, misleading, or incomplete and approximately 8 new applications by transfer agents for registration on Form TA–1 as required by Rule 17Ac2–1(a). Based on past submissions, the staff estimates that on average approximately twelve hours are required for initial completion of Form TA–1 and that on average one and one-half hours are required for an amendment to Form TA–1 by each such firm. Thus, the subtotal burden for new applications for registration filed on Form TA–1 each year is 96 hours (12 hours times 8 filers) and the subtotal burden for amendments to Form TA–1 filed each year is 267 hours (1.5 hours times 178 filers). The cumulative total is 363 burden hours per year (96 hours plus 267 hours).

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available

Extension:
Rule 12f–1, SEC File No. 270–139, OMB Control No. 3235–0128

Rule 12f–1 ("Rule"), originally adopted in 1979 pursuant to Sections 12(f) and 23(a) of the Act, and as further modified in 1995 and 2005, sets forth the requirements for filing an exchange application to reinstate unlisted trading privileges ("UTP") in a security in which UTP has been suspended by the Commission pursuant to Section 12(f)(2)(A) of the Act. The staff estimates that each application would require approximately one hour to complete. Thus each potential respondent would incur on average one burden hour in complying with the Rule.

The Commission staff estimates that there could be as many as 21 responses annually for an aggregate hour burden for all respondents of 21 hours (21 responses × 1 hour per response). Each respondent’s related internal cost of compliance for Rule 12f–1 would be $221.00, or, the cost of one hour of professional work of a paralegal needed to complete the application. The total annual cost of compliance for all potential respondents, therefore, is $4,641 (21 responses × $221.00 per response).

Compliance with Rule 12f–1 is mandatory. Rule 12f–1 does not have a record retention requirement per se. However, responses made pursuant to Rule 12f–1 are subject to the recordkeeping requirements of Rules 17a–3 and 17a–4 of the Act. Information received in response to Rule 12f–1 shall not be kept confidential; the information collected is public information.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
