SUPPLEMENTARY INFORMATION:

I. History: Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS (49 CFR 571) shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7 *Processing of Petitions*, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

II. Summary of Petition: Wallace Environmental Testing Laboratories, Inc. (WETL) of Houston, Texas (Registered Importer R-90-005) has petitioned NHTSA to decide whether nonconforming 2007 Jeep Wrangler Multipurpose Passenger Vehicles (MPV)

manufactured before September 1, 2007 are eligible for importation into the United States. The vehicles which WETL believes are substantially similar are MY 2007 Jeep Wrangler MPV manufactured before September 1, 2007, sold in the United States, and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it compared non-U.S. certified MY 2007 Jeep Wrangler MPV manufactured before September 1, 2007 to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

WETL submitted information with its petition intended to demonstrate that non-U.S. certified MY 2007 Jeep Wrangler MPV manufactured before September 1, 2007, as originally manufactured, conform to many applicable FMVSS in the same manner as their U.S.-certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that the non U.S.-certified MY 2007 Jeep Wrangler MPV manufactured before September 1, 2007, as originally manufactured, conforms to the following standards: FMVSS Nos. 102 *Transmission Shift Position Sequence, Starter Interlock, and Transmission Braking Effect*, 103 *Windshield Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 106 *Brake Hoses*, 108 *Lamps, Reflective Devices, and Associated Equipment*, 109 *New Pneumatic and Certain Specialty Tires*, 111 *Rearview Mirrors*, 113 *Hood Latch System*, 114 *Theft Protection and Rollaway Prevention*, 116 *Motor Vehicle Brake Fluids*, 118 *Power-Operated Window, Partition, and Roof Panel Systems*, 124 *Accelerator Control Systems*, 135 *Light Vehicle Brake Systems*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 203 *Impact Protection for the Driver from the Steering Control System*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 208 *Occupant Crash Protection*, 210 *Seat Belt Assembly Anchorages*, 212 *Windshield Mounting*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 225 *Child Restraint Anchorage Systems*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

The petitioner also contends that the subject non-U.S. certified vehicles are capable of being readily altered to meet the following standard, in the manner indicated:

Standard No. 101 *Controls and Displays*: Installation of the U.S. version of the instrument cluster, or changing the faceplate to include the word “brake” on the brake system malfunction telltale.

Standard No. 110 *Tire Selection and Rims*: Installation of the required tire information placard.

The petitioner additionally states that a vehicle identification plate must be affixed to the vehicle near the left windshield pillar to meet the requirements of 49 CFR part 565, and that a Registered Importer Certification Label must be affixed to the vehicle in the driver’s side door jamb to satisfy the requirements of 49 CFR part 567.

III. Comments: All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A), (a)(1)(B), and (b)(1); 49 CFR 593.7; delegation of authority at 49 CFR 1.95 and 501.8.
