[Docket No. FAA–2018–0062; Airspace Docket No. 18–ASO–3]

Proposed Amendment of Class D Airspace and Class E Airspace; Pensacola, FL, and Proposed Establishment of Class E Airspace; Milton, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class D airspace and Class E airspace extending upward from 700 feet above the surface at Choctaw Naval Outlying Field (NOLF), Milton, FL, by changing the city associated with the airport name in the above airspace classes and adjusting the geographic coordinates of the airport and the Santa Rosa TACAN navigation aid to match the FAA’s aeronautical database.

Additionally, Class E surface airspace would be established at Choctaw NOLF for the safety of aircraft landing and departing the airport when the air traffic control tower is closed. Also, an editorial change would be made to the Class D airspace legal description replacing “Airport/Facility Directory” with the term “Chart Supplement”. This action would enhance the safety and management of instrument flight rules (IFR) operations at the airport.
