Needs and Uses: In a Second Report and Order released on August 13, 2014, FCC 14-118, published at 79 FR 55367, September 16, 2014, the Commission adopted final rules—containing information collection requirements—to enable the Commission to implement text-to-911 service. The text-to-911 rules provide enhanced access to emergency services for people with disabilities and fulfilling a crucial role as an alternative means of emergency communication for the general public in situations where

sending a text message to 911 as opposed to placing a voice call could be vital to the caller's safety. The Second Report and Order adopted rules to commence the implementation of text-to-911 service with an initial deadline of December 31, 2014 for all covered text providers to be capable of supporting text-to-911 service. The Second Report and Order also provided that covered text providers would then have a six-month implementation period. They must begin routing all 911 text messages to a Public Safety Answering Point (PSAP) by June 30, 2015 or within six months of a valid PSAP request for text-to-911 service, whichever is later. To implement these requirements, the Commission seeks to collect information primarily for a database in which PSAPs voluntarily register that they are technically ready to receive text messages to 911. As PSAPs become text-ready, they may either register in the PSAP database (or submit a notification to PS Docket Nos. 10–255 and 11–153), or provide other written notification reasonably acceptable to a covered text messaging provider. Either measure taken by the PSAP constitutes sufficient notification pursuant to the rules in the Second Report and Order. PSAPs and covered text providers may also agree to an alternative implementation timeframe (other than six months). Covered text providers must notify the FCC of the dates and terms of any such alternate timeframe within 30 days of the parties' agreement. Additionally, the rules adopted by the Second Report and Order include other information collections for third party notifications necessary for the implementation of text-to-911, including notifications to consumers, covered text providers, and the Commission. These notifications are essential to ensure that all affected parties are aware of the limitations, capabilities, and status of text-to-911 services. These information collections enable the Commission to meet the objectives for implementation of text-to-911 service and for compliance by covered text providers with the six-month implementation period in furtherance of the Commission's core mission to ensure the public's safety.

AGENCY: Federal Communications Commission.

ACTION: Notice of a modified system of records.

SUMMARY: The Federal Communications Commission (FCC or Commission or Agency) has modified an existing system of records, FCC/OGC–5, Pending Civil Cases, subject to the *Privacy Act of 1974*, as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the agency. The Office of the General Counsel (OGC) uses the personally identifiable information (PII) in this system to update information or furnish additional data for the Government agency handling the pending civil case.

DATES: This action will become effective on March 7, 2018. The routine uses in this action will become effective on April 6, 2018 unless comments are received that require a contrary determination.

ADDRESSES: Send comments to Leslie F. Smith, Privacy Manager, Information Technology (IT), Room 1–C216, Federal Communications Commission, 445 12th Street SW, Washington, DC 20554, or to Leslie.Smith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Leslie F. Smith, (202) 418–0217, or Leslie.Smith@fcc.gov (and to obtain a copy of the Narrative Statement and the Supplementary Document, which includes details of the proposed alterations to this system of records).

SUPPLEMENTARY INFORMATION: This notice serves to update and modify FCC/OGC–5, Pending Civil Cases, as a result of an increased use of electronic information technology. The substantive changes and modifications to the previously published version of the FCC/OGC–5 system of records include:

1. Change to the Security Classification to note OMB's guidance that this system's records are not classified.
2. Addition of 31 U.S.C. 3729–3733 to the Authorities for Maintenance of the System.
3. Numerous changes to the Record Source Categories to include individuals who file or are subjects of civil cases; attorneys or representatives of claimants and subjects of civil cases; communication between FCC bureaus and offices, Justice Department and U.S.

attorneys, and other Federal agencies including U.S. District Courts; and parties to civil cases and proceedings and investigative materials, related documentation, and decisions including appeals, amendments, litigation, and related matters.

4. Deletion of one routine use: (2) Public Access, since releases under the FOIA are covered by 5 U.S.C. 552a(b)(2), so a separate routine use for them is not needed.

5. Updating language, adding information, and/or renumbering five routine uses: (1) Adjudication and Litigation (previously (2)); (2) Law Enforcement and Investigation; (3) Congressional Inquiries; and (4) Government-wide Program Management and Oversight.

6. Adding three new routine uses: (5) Breach Notification to address real or suspected data breach situations at the FCC; (6) Assistance to Federal Agencies and Entities for assistance with other Federal agencies' data breach situations; and (7) For Non-Federal Personnel to allow contractors performing or working on a contract for the Federal Government access to information. Routine Uses (5) and (6) are required by OMB Memorandum m-17–12.

7. Adding a new section: Reporting to a Consumer Reporting Agency to address valid and overdue debts owed by individuals to the FCC under the *Debt Collection Act*, as recommended by OMB.

The system of records is also updated to reflect various administrative changes related to the system managers and system addresses; policy and practices for storage, retrieval, and retention and disposal of the records; administrative, technical, and physical safeguards; and updated notification, records access, and contesting records procedures.
