Needs and Uses: The Alternative Broadcast Inspection Program (ABIP) is a series of agreements between the Federal Communications Commission's (FCC) Enforcement Bureau and a private entity, usually a state broadcast association, whereby the private entity agrees to facilitate inspections (and re-inspections, where appropriate) of participating broadcast stations to

determine station compliance with FCC regulations. Broadcast stations participate in ABIP on a voluntary basis. The private entities notify their local FCC District Office or Resident Agent Office in writing of those stations that pass the ABIP inspection and have been issued a Certificate of Compliance by the ABIP inspector. The FCC uses this information to determine which broadcast stations have been certified in compliance with FCC Rules and will not be subject to certain random FCC inspections.

In the EA, GSA will discuss impacts that could occur as a result of the construction and operation of the proposed project. With this notice, GSA is asking agencies with jurisdiction and/or special expertise with respect to environmental issues to formally cooperate with GSA in the preparation of the EA. These agencies may choose to participate once they have evaluated

the proposal relative to their responsibilities. Agencies that would like to request cooperating agency status should follow the instructions for filing comments provided, above. An independent analysis of the issues will be presented in the EA. The EA will be placed in the public record and a comment period will be allotted on the Draft EA. FMS reduces duplicate applicant records as well as agency resources to administer and
