that the Agency by regulation deems to be subject to the law. Option 1 of the proposed rule would extend the Agency's ''tobacco product'' authorities in the FD&C Act to all other categories of products, except accessories of a proposed deemed tobacco product, that meet the statutory definition of ''tobacco product'' in the FD&C Act. Option 2 of the proposed rule would extend the Agency's ''tobacco product'' authorities to all other categories of products, except premium cigars and the accessories of a proposed deemed tobacco product, that meet the statutory definition of ''tobacco product'' in the FD&C Act. FDA also is proposing to prohibit the sale of ''covered tobacco products'' to individuals under the age of 18 and to require the display of health warnings on cigarette tobacco, roll-your own tobacco, and covered tobacco product packages and in advertisements. FDA is taking this action to address the public health concerns associated with the use of tobacco products.

Background

On March 11, 2014, the FHWA published in the **Federal Register** a NPRM proposing to establish measures for State departments of transportation (State DOT) to use to carry out the Highway Safety Improvement Program (HSIP) and to assess serious injuries and fatalities per vehicle mile traveled, and the number of serious injuries and fatalities. The HSIP is a core Federal-aid highway program with the purpose of achieving a significant reduction in fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands. (23 U.S.C. 148(b)).

This NPRM also proposes the following: the definitions that will be applicable to the new 23 CFR 490; the process to be used by State DOTs and Metropolitan Planning Organizations (MPOs) to establish safety-related performance targets that reflect the measures proposed in this rulemaking; a methodology to be used to assess State DOTs compliance with the target achievement provision specified under 23 U.S.C. 148(i); and the process State DOTs must follow to report on progress towards the achievement of safety-related performance targets.

The original comment period for the NPRM closes on June 9, 2014. The FHWA believes that this closing date may not provide sufficient time to review and provide comprehensive comments on the National Performance Management Measures; Highway Safety Improvement Program NPRM, considering all related rulemaking activities including the related FHWA/FTA Statewide and Nonmetropolitan Transportation Planning; Metropolitan Transportation Planning NPRM (FHWA RIN 2125–AF52; FTA RIN 2132–AB10). To allow the public to submit comprehensive comments, the closing date is changed from June 9, 2014, to June 30, 2014.

Authority: 23 U.S.C. 134, 135, 148(i) and 150; 49 CFR 1.85.

Issued on: May 21, 2014.

Deputy Administrator, Federal Highway Administration.
