the refuge and the airport. The trail system within the refuge would be more extensive than under Alternative C. Working with our partners, we would manage access to the perimeter trail and promote trail linkages to the Rocky Mountain Greenway Trail and other regional trails. We would manage the refuge's habitat and wildlife as in Alternative B and we would work with neighboring landowners and state agencies to extend the range of native species.

Comments

We solicited comments on the draft CCP and draft EIS from May 6, 2015, through July 6, 2015. During the comment period, we thoroughly evaluated and considered all the comments we received verbally or via letters, email, and electronic forms from the public. Our responses to comments are included in the final EIS.

Changes to the Final EIS

We made the following changes in the final EIS from the draft CCP and draft EIS:

- Several comments pointed out the need to increase the number of law enforcement officers in the refuge to better cope with the increased visitation and new access to the refuge. Thus the Final EIS reflects our desire to seek more than one full-time law enforcement officer for the refuge under Alternatives C and D.
- As necessary, we updated maps, corrected errors, and provided additional clarification throughout the final EIS.
