

and/or of essential functions, and possible reduced control of the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Modification

Within 24 months after the effective date of this AD, modify the anti-collision light bonding, in accordance with the Accomplishment Instructions of the applicable service information specified in paragraphs (g)(1) through (g)(7) of this AD.

(1) For Model MYSTERE-FALCON 50 airplanes: Dassault Service Bulletin F50-481, dated August 22, 2007.

(2) For Model MYSTERE-FALCON 900 airplanes with the WHELEN system installed on the fin tip: Dassault Service Bulletin F900-372, dated August 22, 2007.

(3) For Model MYSTERE-FALCON 900 airplanes with the WHELEN system installed on the S-duct cowl: Dassault Service Bulletin F900-378, dated September 19, 2007.

(4) For Model FALCON 900EX airplanes with the WHELEN system installed on the fin tip: Dassault Service Bulletin F900EX-285, dated July 18, 2007.

(5) For Model FALCON 900EX airplanes with the WHELEN system installed on the S-duct cowl: Dassault Service Bulletin F900EX-305, dated September 19, 2007.

(6) For Model FALCON 2000 airplanes: Dassault Service Bulletin F2000-337, dated July 25, 2007.

(7) For Model FALCON 2000EX airplanes: Dassault Service Bulletin F2000EX-108, dated July 25, 2007.

(h) Other FAA AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs)*: The Manager, International Branch, ANM-116, Transport Airplane Directorate, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the International Branch, send it to ATTN: Tom Rodriguez, Aerospace Engineer, International Branch, ANM-116, Transport Airplane Directorate, FAA, 1601 Lind Avenue SW., Renton, WA 98057-3356; telephone 425-227-1137; fax 425-227-1139. Information may be emailed to: 9-ANM-116-AMOC-REQUESTS@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office. The AMOC approval letter must specifically reference this AD.

(2) *Contacting the Manufacturer*: For any requirement in this AD to obtain corrective actions from a manufacturer, the action must be accomplished using a method approved by the Manager, International Branch, ANM-116, Transport Airplane Directorate, FAA; or the European Aviation Safety Agency (EASA); or Dassault Aviation's EASA Design Organization Approval (DOA). If approved by

the DOA, the approval must include the DOA-authorized signature.

(i) Related Information

(1) Refer to Mandatory Continuing Airworthiness Information (MCAI) European Aviation Safety Agency Airworthiness Directive 2015-0006, dated January 15, 2015, for related information. This MCAI may be found in the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA-2015-3629.

(2) For service information identified in this AD, contact Dassault Falcon Jet, P.O. Box 2000, South Hackensack, NJ 07606; telephone 201-440-6700; Internet <http://www.dassaultfalcon.com>. You may view this service information at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, WA. For information on the availability of this material at the FAA, call 425-227-1221.

Issued in Renton, Washington, on September 2, 2015.

Michael Kaszycki,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1028

Protection of Human Subjects

AGENCY: Consumer Product Safety Commission.

ACTION: Proposed rule.

SUMMARY: On September 8, 2015, the federal departments and agencies that are subject to the Federal Policy for the Protection of Human Subjects (referred to as the "Common Rule") published a notice of proposed rulemaking ("NPR") amending the Common Rule. Through this proposed rule, the Consumer Product Safety Commission ("CPSC" or "Commission") proposes to adopt the Common Rule NPR and solicits public comment on the proposal.

DATES: Comments must be received no later than 5 p.m. on December 7, 2015.

ADDRESSES: You may submit comments, identified by docket ID number HHS-OPHS-2015-0008, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Enter the above docket ID number in the "Enter Keyword or ID" field and click on "Search." On the next Web page, click on "Submit a Comment" action and follow the instructions.

- *Mail/Hand delivery/Courier [For paper, disk, or CD-ROM submissions]* to: Jerry Menikoff, M.D., J.D., OHRP, 1101 Wootton Parkway, Suite 200,

Rockville, MD 20852. Comments received, including any personal information, will be posted without change to www.regulations.gov.

FOR FURTHER INFORMATION CONTACT:

Hope E.J. Nesteruk, Human Factors Engineer, Division of Human Factors, Directorate for Engineering Sciences, Consumer Product Safety Commission, 5 Research Place, Rockville, MD 20850; telephone: 301-987-2579; email: hnesteruk@cpsc.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On June 18, 1991, the Department of Health and Human Services ("HHS") issued a rule setting forth the Common Rule requirements for the protection of human subjects. (56 FR 28003). The HHS regulations are codified at 45 CFR part 46. At that time, 14 other agencies, including the CPSC, joined HHS in adopting a uniform set of rules for the protection of human subjects identical to subpart A of 45 CFR part 46. The Common Rule is codified in the CPSC's regulations at 16 CFR part 1028. The basic provisions of the Common Rule include, among other things, requirements related to the review of human subjects research by an institutional review board, obtaining and documenting informed consent of human subjects, and submitting a written assurance of institutional compliance with the Common Rule.

On September 8, 2015, (80 FR 53933), HHS, on behalf of many of the same agencies that were signatories to the original Common Rule, proposed revisions to modernize, strengthen, and make more effective the Federal Policy for the Protection of Human Subjects that was promulgated as a Common Rule in 1991. The Common Rule NPR seeks comment on proposals to better protect human subjects involved in research, while facilitating valuable research and reducing burden, delay, and ambiguity for investigators. The participating departments and agencies proposed these revisions to the regulations because they believe these changes would strengthen protections for research subjects while facilitating important research.

The full description of the proposed revisions to the Common Rule is provided in the Common Rule NPR at 80 FR 53933. Although the CPSC is a signatory to the original Common Rule, the CPSC's procedural requirements require Commission deliberation and vote on new rulemaking matters. Due to HHS's expedited schedule regarding publication of the Common Rule NPR in the **Federal Register**, the CPSC was not

a signatory of the Common Rule NPR. However, through this proposed rule, the Commission proposes to adopt the Common Rule NPR and solicits comment on the proposal.

II. CPSC's Proposed Regulatory Text

CPSC's current regulations on the protection of human subjects are the regulations promulgated by all of the departments and agencies subject to the Common Rule, as codified under the CPSC's regulations at 16 CFR part 1028. For the reasons provided in the Common Rule NPR (80 FR 53933), the CPSC would adopt the amended regulatory text provided in the Common Rule NPR. Because the CPSC follows the HHS regulations in 45 CFR part 46, subpart A, the CPSC proposes to amend the Commission regulations at 16 CFR part 1028 to cross-reference the HHS regulations in 45 CFR part 46, subpart A.

List of Subjects in 16 CFR Part 1028

Human research subjects, Reporting and recordkeeping requirements, Research.

For the reasons stated in the preamble, the Consumer Product Safety Commission proposes to revise 16 CFR part 1028 to read as follows:

PART 1028—PROTECTION OF HUMAN SUBJECTS

Sec.
1028.101 Cross-Reference.

Authority: 5 U.S.C. 301; 42 U.S.C. 300v–1(b).

PART 1028—PROTECTION OF HUMAN SUBJECTS

§ 1028.101 Cross-Reference.

The provisions set forth at 45 CFR part 46, subpart A, concerning the protection of human research subjects, apply to all research conducted, supported, or otherwise subject to regulation by the CPSC.

Dated: September 21, 2015.

Todd A. Stevenson,
Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 40

[Docket No. RM15–8–000]

Relay Performance During Stable Power Swings Reliability Standard

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission proposes to approve Reliability Standard PRC–026–1 (Relay Performance During Stable Power Swings), submitted by the North American Electric Reliability Corporation. The proposed Reliability Standard is designed to ensure that applicable entities use protective relay systems that can differentiate between faults and stable power swings. In addition, the Commission requests comment regarding the potential burden of modifying the applicability of proposed Reliability Standard PRC–026–1 to include relays with a time delay of 15 cycles or greater in instances where either (1) an element has been identified by a Planning Coordinator as potentially susceptible to power swings or (2) an entity becomes aware of a bulk electric system element that tripped in response to a stable or unstable power swing due to the operation of its protective relay(s), even if the element was not previously identified by the planning coordinator.

DATES: Comments are due November 23, 2015.

ADDRESSES: Comments, identified by docket number, may be filed in the following ways:

- *Electronic Filing through <http://www.ferc.gov>.* Documents created electronically using word processing software should be filed in native applications or print-to-PDF format and not in a scanned format.

- *Mail/Hand Delivery:* Those unable to file electronically may mail or hand-deliver comments to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE., Washington, DC 20426.

Instructions: For detailed instructions on submitting comments and additional information on the rulemaking process, see the Comment Procedures Section of this document.

FOR FURTHER INFORMATION CONTACT:

Kenneth Hubona (Technical Information), Office of Electric Reliability, Federal Energy Regulatory

Commission, 888 First Street NE., Washington, DC 20426, (301) 665–1608, kenneth.hubona@ferc.gov.
Kevin Ryan (Legal Information), Office of the General Counsel, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502–6840, kevin.ryan@ferc.gov.

SUPPLEMENTARY INFORMATION:

1. Pursuant to section 215 of the Federal Power Act (FPA),¹ the Commission proposes to approve Reliability Standard PRC–026–1 (Relay Performance During Stable Power Swings), submitted by the North American Electric Reliability Corporation (NERC), the Commission-approved Electric Reliability Organization (ERO). The proposed Reliability Standard applies to planning coordinators, as well as generator owners and transmission owners that apply certain load-responsive protective relays in specific, identified circumstances, and is designed to ensure the use of protective relay systems that can differentiate between faults and stable power swings. In addition, the Commission proposes to approve NERC's proposed implementation plan, and the assigned violation risk factors and violation severity levels.

2. Consistent with directives issued in Order No. 733,² the Commission proposes to find that the proposed Reliability Standard addresses undesirable relay operation due to power swings,³ and provides an equally effective and efficient alternative to the Order No. 733 directive requiring the use of protective relay systems that can differentiate between faults and stable power swings and, when necessary, retirement of protective relay systems that cannot meet this requirement.⁴ Further, as discussed below, the Commission seeks comment regarding the potential burden of modifying the applicability of proposed Reliability Standard PRC–026–1 to include relays with a time delay of 15 cycles or greater in instances where either (1) an element has been identified by a Planning Coordinator as potentially susceptible to power swings or (2) an entity becomes aware of a bulk electric system element that tripped in response to a stable or
