A. Purpose

Per Federal Acquisition Regulation Part 48, value engineering is the technique by which contractors (1) voluntarily suggest methods for performing more economically and share in any resulting savings or (2) are required to establish a program to identify and submit to the Government methods for performing more economically. These recommendations are submitted to the Government as value engineering change proposals (VECP's) and they must include specific information. This information is needed to enable the Government to evaluate the VECP and, if accepted, to arrange for an equitable sharing plan.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day–16–1076; Docket No. CDC–2016–0009]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing efforts to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. This notice invites comment on the proposed revision of the information collection entitled “Division of Community Health (DCH) Training and Technical Assistance: Needs Assessment and Satisfaction Surveys”.

DATES: Written comments must be received on or before March 21, 2016.

ADDRESSES: You may submit comments, identified by Docket No. CDC–2016–0009 by any of the following methods:

Federal eRulemaking Portal: Regulation.gov. Follow the instructions for submitting comments.

Mail: Leroy A. Richardson, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS–D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. All relevant comments received will be posted without change to Regulations.gov, including any

personal information provided. For access to the docket to read background documents or comments received, go to Regulations.gov.

Please note: *All public comment should be submitted through the Federal eRulemaking portal (Regulations.gov) or by U.S. mail to the address listed above.*

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact the Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS–D74, Atlanta, Georgia 30329; phone: 404–639–7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and

maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

Proposed Project

Division of Community Health (DCH) Training and Technical Assistance: Needs Assessment and Satisfaction Surveys (OMB No. 0920–1076, exp. 7/31/2017)—Revision—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Centers for Disease Control and Prevention (CDC), Division of Community Health (DCH), requests OMB approval to revise an ongoing information collection. The original information collection plan was based on two needs assessments conducted with DCH awardees at two different time points. In the proposed Revision, CDC describes plans to assess awardee satisfaction with the training and technical assistance (TA) being provided to them, in lieu of conducting the second needs assessment. The project title is being revised to reflect changes in the information collection plan. The original project title was “DCH Awardee Training Needs Assessment.”

In 2014, DCH announced the availability of funding for two cooperative agreement programs authorized by the Public Health Service Act: Partnerships for Community Health (PICH) and Racial and Ethnic Approaches to Community Health (REACH). The REACH cooperative agreement is financed in part by the Prevention and Public Health Fund of the Affordable Care Act. The cooperative agreements are designed to address chronic diseases and risk factors for chronic diseases, including physical inactivity, poor diet, obesity, and tobacco use. These risk factors contribute to chronic conditions such as heart disease, cancer, diabetes, and obesity. Over three-year funding periods, PICH and REACH awardees are providing support for implementation of broad, evidence- and practice-based policy and environmental improvements in large and small cities, urban and rural areas, tribes, multi-sector community coalitions, and racial and ethnic communities experiencing chronic disease disparities. PICH and REACH awardees include a mix of state,
