

Use or Disclosure of Health Information Form(s), as well as the injured countermeasure recipient's medical records and supporting documentation.

A requester who is an injured countermeasure recipient may be eligible to receive benefits for unreimbursed medical expenses and/or lost employment income. The estate of a deceased countermeasure recipient may also be eligible to receive medical benefits and/or benefits for lost employment income accrued prior to the injured countermeasure recipient's death. If death was the result of the administration or use of the countermeasure, certain survivor(s) of deceased eligible countermeasure recipients may be eligible to receive a death benefit, but not unreimbursed medical expenses or lost employment income benefits. 42 CFR 110.33. The death benefit is calculated using either the "standard calculation" or the "alternative calculation." The "standard calculation" is based on the death benefit available under the Public Safety Officers' Benefits (PSOB) Program. 42 CFR 110.82(b). The "alternative calculation" is based on the deceased countermeasure recipient's income and is only available to the recipient's dependent(s) younger than age 18 at the time of the countermeasure recipient's death. Continued approval is requested for the required information collection

via the Request for Benefits Package (RFB) and for continued use of CICIP's mechanisms of medical documentation and supporting documentation collection. During the eligibility review, CICIP provides requesters with the opportunity to supplement their Requests for Benefits with additional medical records and supporting documentation before a final Program decision is made. CICIP asks requesters to complete and sign a form indicating whether they intend to submit additional documentation prior to the final determination of their case. In addition, approval is requested for the continued use of a benefits documentation package that CICIP sends to requesters who may be eligible for compensation, which includes certification forms and instructions outlining the documentation needed to determine the types and amounts of benefits. This documentation is required under 42 CFR 110.61–110.63 of CICIP's implementing regulation to enable the Program to determine the types and amounts of benefits the requester may be eligible to receive. Likely Respondents: Members of the public who believe they have sustained serious physical injuries or deaths as the direct result of the administration or use of a covered countermeasure for a disease, condition, or threat that the Secretary determines either constitutes a current

public health emergency, or there is a credible risk that the disease, condition, or threat may in the future constitute such an emergency. Persons who may be eligible to receive benefits from the CICIP are:

- (1) Injured countermeasure recipients, as described in § 110.3(n).
- (2) Survivors, as described in §§ 110.3(cc) and 110.11.
- (3) Estates of deceased injured countermeasure recipients, as described in § 110.10(a)(3).

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this Information Collection Request are summarized in the table below.

The annual estimate of burden is as follows:

| Form name | Number of respondents | Number of responses per respondent | Total responses | Average burden per response (in hours) | Total burden hours |
|---|-----------------------|------------------------------------|-----------------|--|--------------------|
| Request for Benefits Form and Supporting Documentation Authorization for Use or Disclosure of Health Information Form | 100 | 1 | 100 | 11 | 1,100 |
| Additional Documentation and Certification | 100 | 1 | 100 | 2 | 200 |
| Benefits Package and Supporting Documentation | 30 | 1 | 30 | .75 | 22.5 |
| | 30 | 1 | 30 | .125 | 3.75 |
| Total | 100 | | 100 | | 1,326.25 |

* The number 100 represents an estimate of individuals applying for Program benefits. The 4 documents are required of the same 100 individuals or subset of the 100 individuals.

HRSA especially requests comments on: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Jason E. Bennett,
 Director, Division of the Executive Secretariat.
