

SURFACE TRANSPORTATION BOARD**[Docket No. AB 55 (Sub-No. 764X)]****CSX Transportation, Inc.—
Discontinuance of Service
Exemption—in Pike County, KY**

CSX Transportation, Inc. (CSXT), filed a verified notice of exemption under 49 CFR part 1152 subpart F—*Exempt Abandonments and Discontinuances of Service* to discontinue service over an approximately 5.1-mile rail line on its Northern Region, Louisville Division, and Coal Run Subdivision (also known as the Winns Branch), between mileposts CML 9.0 and CML 14.1, in Pike County, KY (the Line). The Line traverses United States Postal Service Zip Codes 41557 and 41501. There is one station on the Line, Frozen Creek at milepost 14 (FSAC 84185/OPSL 67466.08), which can be closed.

CSXT has certified that: (1) No local traffic has moved over the Line for at least two years; (2) since the Line is not a through line, no overhead traffic has moved over the Line; (3) no formal complaint filed by a user of rail service on the Line (or by a state or local government entity acting on behalf of such user) regarding cessation of service over the Line either is pending before the Surface Transportation Board or any U.S. District Court or has been decided in favor of a complainant within the two-year period; and (4) the requirements at 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.¹

As a condition to this exemption, any employee adversely affected by the discontinuance shall be protected under *Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) to subsidize continued rail service has been received, this exemption will become effective on October 29, 2016 (50 days after the filing of the exemption), unless stayed pending reconsideration. Petitions to

¹ Section 1152.50(d)(1) requires that a railroad provide notice to governmental agencies 10 days before filing a notice of discontinuance. CSXT filed its notice with the Board on September 7, 2016, eight days after mailing notice of the proposed discontinuance to the governmental agencies. Therefore, we will consider the notice to have been filed with the Board on September 9, 2016.

stay that do not involve environmental issues and formal expressions of intent to file an OFA to subsidize continued rail service under 49 CFR 1152.27(c)(2)² must be filed by October 7, 2016.³ Petitions to reopen must be filed by October 19, 2016, with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to CSXT's representative: Louis E. Gitomer, 600 Baltimore Ave., Suite 301, Towson, MD 21204.

If the verified notice contains false or misleading information, the exemption is void ab initio.

SUPPLEMENTARY INFORMATION: The FAA has designated EWR, LAX, ORD, and SFO as IATA Level 2 airports and JFK as an IATA Level 3 airport. The FAA currently limits scheduled operations at JFK by Order until October 27, 2018.¹

The FAA is primarily concerned about scheduled and other regularly conducted commercial operations during peak hours, but carriers may submit schedule plans for the entire day. At ORD, the peak hours are 0700 to 2100 Central Time (1200 to 0200 UTC), at LAX and SFO from 0600 to 2300 Pacific Time (1300 to 0600 UTC), and at EWR and JFK from 0600 to 2300 Eastern Time (1000 to 0300 UTC). Carriers should submit schedule information in sufficient detail, including, at minimum, the operating carrier, flight number, scheduled time of operation, frequency, and effective dates. IATA standard schedule information format and data elements (Standard Schedules Information Manual or SSIM, Chapter 6) may be used. The WSG provides additional information on schedule submissions and updates at Level 2 and Level 3 airports.

The U.S. summer scheduling season for these airports is from March 26 through October 28, 2017, in recognition of the IATA northern summer period. The FAA understands there may be differences in schedule times due to different U.S. daylight saving time dates and will accommodate these differences to the extent possible.

JFK will have construction in 2017 on Runway 4R/22L for rehabilitation of pavement, widening of certain taxiways, new high speed taxiways, drainage system upgrades, and electrical light
