II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled: "NRC Forms 540 and 540A, 'Uniform Low-Level Radioactive Waste Manifest (Shipping Paper) and Continuation Page.'" The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on June 22, 2016 (81 FR 40728).

1. *The title of the information collection:* "NRC Forms 540 and 540A, 'Uniform Low-Level Radioactive Waste Manifest (Shipping Paper) and Continuation Page.'"
2. *OMB approval number:* 3150-0164.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* NRC Forms 540 and 540A.

5. *How often the collection is required or requested:* Forms are used by shippers whenever radioactive waste is shipped. Quarterly or less frequent reporting is made to Agreement States depending on specific license conditions. No reporting is made to the NRC.

6. *Who will be required or asked to respond:* All NRC or Agreement State low-level waste facilities licensed pursuant to part 61 of title 10 of the *Code of Federal Regulations* (10 CFR) or equivalent Agreement State regulations. All generators, collectors, and processors of low-level waste intended for disposal at a low-level waste facility must complete the appropriate forms.

7. *The estimated number of annual responses:* 5,740.

8. *The estimated number of annual respondents:* 220.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 4,305.

10. *Abstract:* NRC Forms 540 and 540A provide a set of standardized forms to meet Department of Transportation (DOT), NRC, and State requirements. The forms were developed by NRC at the request of low-level waste industry groups. The forms provide uniformity and efficiency in the collection of information contained in manifests which are required to control transfers of low-level radioactive waste intended for disposal at a land disposal facility. The NRC Form 540 contains information needed to satisfy DOT shipping paper requirements in 49 CFR part 172, and the waste tracking requirements of the NRC in 10 CFR part 20.
