II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On September 7, 2016, The Nasdaq Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") a proposed rule change ("Proposal") to adopt paragraph (d) and Commentary .12 to Exchange Rule 4770 to describe changes to system functionality necessary to implement the Plan. The Exchange also proposed amendments to Rule 4770(a) and (c) to clarify how the Trade-at exception may be satisfied. The SEC published the Proposal in the **Federal Register** for notice and comment on September 20, 2016.⁴ Nasdaq subsequently filed three Partial Amendments to clarify aspects of the Proposal. The Commission approved the Proposal, as amended, on October 7, 2016.⁵

In SR-NASDAQ-2016-126, Nasdaq had initially proposed a re-pricing functionality for Price to Comply Orders, Non-Displayed Orders, and Post-Only Orders entered through the OUCH and FLITE protocols in Group

Three securities.⁶ Nasdaq subsequently determined that it would not offer this re-pricing functionality for Price to Comply Orders, Non-Displayed Orders, and Post-Only Orders entered through the OUCH and FLITE protocols in Group Three securities. As part of Partial Amendment No. 2 to SR-NASDAQ-2016-126, Nasdaq proposed to delete the relevant language from Rule 4770 related to this re-pricing functionality.

In that amendment, Nasdaq noted that this change would only impact the treatment of Price to Comply Orders, Non-Displayed Orders, and Post-Only orders that are submitted through the OUCH and FLITE protocols in Test Group Three Pilot Securities, as these types of Orders that are currently submitted to Nasdaq through the RASH, QIX or FIX protocols are already subject to this re-pricing functionality and will remain subject to this functionality under the Pilot.

In the Amendment, Nasdaq further noted that its systems are currently programmed so that Price to Comply Orders, Non-Displayed Orders and Post-Only Orders entered through the OUCH and FLITE protocols in Test Group Three Securities may be adjusted repeatedly to reflect changes to the NBBO and/or the best price on the Nasdaq book. Nasdaq stated that it is re-programming its systems to remove this functionality for Price to Comply Orders, Non-Displayed Orders and Post-Only Orders entered through the OUCH and FLITE protocols in Test Group Three Securities. In the Amendment, Nasdaq stated that it anticipated that this re-programming shall be completed no later than November 30, 2016. If it appeared that this functionality would remain operational by October 17, 2016, Nasdaq indicated that it would file a proposed rule change with the SEC and will provide notice to market participants sufficiently in advance of that date to provide effective notice. The rule change and the notice to market participants would describe the current

⁶ As originally proposed, Rule 4770(d)(2) stated that Price to Comply Orders in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Comply Order is able to be ranked and displayed at its original entered limit price. Rule 4770(d)(3) stated that, if market conditions allow, a Non-Displayed Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO up (down) to the Order's limit price. Rule 4770(d)(4) stated that, if market conditions allow, the Post-Only Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO or the best price on the Nasdaq Book, as applicable until such time as the Post-Only Order is able to be ranked and displayed at its original entered limit price.

operation of the Nasdaq systems in this regard, and the timing related to the re-programming.

On October 17, 2016, Nasdaq filed a proposal to extend the date by which it would complete the re-programming of its systems to eliminate the re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols.⁷ In that proposal, Nasdaq stated that it anticipated that this re-programming shall be complete on or before October 31, 2016.⁸

On October 31, 2016, Nasdaq submitted a proposed rule change to extend the date by which it would eliminate the re-pricing functionality to November 14, 2016.⁹ In that proposal, Nasdaq stated that it was still determining how to modify its systems to eliminate the current re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols.

At this time, Nasdaq is in the process of re-programming its systems to eliminate the re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols. Nasdaq anticipates that this re-programming shall be complete on or before December 12, 2016.

Therefore, the current treatment of Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols in Test Group Three securities shall be as follows:

Following entry, and if market conditions allow, a Price to Comply Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Comply Order is able to be ranked and displayed at its original entered limit price.

⁷ See Securities Exchange Act Release No. 79155 (October 25, 2016) (SR-NASDAQ-2016-143).

Subsequent to the approval of SR-NASDAQ-2016-126, Nasdaq became aware that this re-pricing functionality also applies to Price to Display Orders that are entered through the OUCH and FLITE protocols in Test Group Three Securities, and included those Orders as part of SR-NASDAQ-2016-143 accordingly. Price to Display Orders will be treated in the same manner as Price to Comply Orders under the re-pricing functionality.

⁵ See Securities Exchange Act Release No. 79075 (October 7, 2016) (SR-NASDAQ-2016-126).

Following entry, and if market conditions allow, a Price to Display Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Display Order is able to be ranked and displayed at its original entered limit price.

Following entry, and if market conditions allow, a Non-Displayed Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO up (down) to the Order's limit price.

Following entry, and if market conditions allow, a Post-Only Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO or the best price on the Nasdaq Book, as applicable until such time as the Post-Only Order is able to be ranked and displayed at its original entered limit price.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹¹ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. The purpose of this filing is to inform the SEC and market participants of the status of Nasdaq's attempts to re-program its systems to remove the re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols, and the current treatment of such orders pending the removal of this functionality. This proposal is consistent with the Act because it provides the SEC and market participants with notice of Nasdaq's efforts in this regard, and is being submitted in connection with the statements made by Nasdaq in SR-NASDAQ-2016-126, SR-NASDAQ-2016-143 and SR-NASDAQ-2016-151 in proposing the removal of this functionality.

Nasdaq also believes that the proposal is consistent with the Act because the re-pricing functionality will not significantly impact the data gathered pursuant to the Pilot. Nasdaq notes that this re-pricing functionality only affects Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and

Post-Only Orders that are entered through the OUCH or FLITE protocols for Test Group Three securities until the re-pricing functionality is eliminated, and only becomes relevant when an Order in a Test Group Three security would cross a Protected Quotation of another market center. Nasdaq has analyzed data relating to the frequency with which Orders in Test Group Three securities are entered with a limit price that would cross a Protected Quotation of another market center, and believes that the re-pricing functionality will be triggered infrequently.¹² The Exchange also notes that it is diligently working to eliminate the current re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols, and that it anticipates this re-programming to be complete on or before December 12, 2016.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The purpose of this proposal is to provide the SEC and market participants with notice of Nasdaq's efforts to remove its re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols, consistent with its statements in SR-NASDAQ-2016-126, SR-NASDAQ-2016-143, and SR-NASDAQ-2016-151.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing change has become effective pursuant to Section 19(b)(3)(A)(iii)¹³ of the Act and Rule 19b-4(f)(6)¹⁴ thereunder, in that it effects a change that: (i) Does not significantly affect the protection of

investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
