ETA published the final rule on August 1, 2016, and the rule became effective on September 30, 2016. Because the public law invalidates the rule, ETA is hereby removing it from the Code of Federal Regulations.

Coast Guard

33 CFR Part 117

[Docket No. USCG-2017-0161]

Drawbridge Operation Regulation; Canaveral Barge Canal, Canaveral, FL

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation with request for comments; modification.

SUMMARY: The Coast Guard has modified a temporary deviation from the operating schedule that governs the SR 401 Drawbridge, mile 5.5 at Port Canaveral, Florida. This modified deviation is necessary to reduce vehicular traffic congestion and to ensure the safety of the roadways while passengers are transiting to and from Cruise Terminal 10, which is used by Norwegian Cruise Line at Port Canaveral. Since the arrival of the cruise ship Norwegian Epic to the Port of Canaveral, massive traffic back-ups have been caused by the drawbridge openings. This modified deviation allows the bridge to not open to navigation during prime cruise ship passenger loading and unloading times on Saturdays and Sundays.

DATES: This modified deviation is effective without actual notice from May 11, 2017 until October 23, 2017. Submit comments by June 26, 2017.

ADDRESSES: The docket for this deviation, [USCG-2017-0161] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH". Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Michael Lieberum with the Seventh Coast Guard District Bridge Office; telephone 305-415-6744, email Michael.B.Lieberum@uscg.mil.

SUPPLEMENTARY INFORMATION: On April 25, 2017 the Coast Guard published a temporary deviation entitled "Drawbridge Operation Regulation; Canaveral Barge Canal, Canaveral, FL in the **Federal Register** (82 FR 18989). Under that temporary deviation, the bridge would remain in the closed-to-navigation position from 11 a.m. to 2 p.m. on Saturdays. The Canaveral Port Authority has requested that this deviation also include Sundays. The current operating regulation is under 33 CFR 117.273. The bridge logs from November 2016 indicate that, at most, approximately nine vessels may be affected by establishing this three hour bridge closure on Saturdays and Sundays. The majority of the opening requests were either at the beginning or end of this closure period; therefore, by adjusting their transits slightly there should be a negligible overall effect. This modified deviation is effective from May 11, 2017 until October 23, 2017. The Coast Guard will continue to evaluate the impact to mariners navigating this area during the closure periods and has requested comments be submitted during the first 60 days of this modified deviation.

Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will be able to open for emergencies and there is no immediate alternate route for vessels to pass through the bridge in closed positions. The Coast Guard will also inform the users of the waterways through Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

NPRM Notice of Proposed Rulemaking
§ Section
U.S.C. United States Code

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because doing so would be impracticable. The Coast Guard did not receive the final details of this air show until there was insufficient time remaining before the event to publish an NPRM.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1231. Having reviewed the application for a marine event submitted by the sponsor on March 14, 2017, the Captain of the Port Detroit (COTP) has determined that an aircraft aerial display proximate to a gathering of watercraft poses a significant risk to public safety and property. Such hazards include potential aircraft malfunctions, loud noise levels, and waterway distractions. Therefore, the COTP is establishing a safety zone around the event location to
