Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Exempted Fishing Permit; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of applications for exempted fishing permits; request for comments; correction.

SUMMARY: NMFS announces the receipt of five applications for exempted fishing permits (EFPs) from the Florida Fish and Wildlife Conservation Commission (FWC), Alabama Department of Conservation and Natural Resources (ADCNR), Mississippi Department of Marine Resources (MDMR), Louisiana Department of Wildlife and Fisheries (LDWF), and Texas Parks & Wildlife Department (TPWD). If granted, the EFPs would authorize the applicants, with certain conditions, to set the season(s) for red snapper caught by the private angling component, the Federal charter vessel/headboat (for-hire) component, or both, as applicable, and landed in each respective state. The EFPs would do so by exempting persons from the annual closed Federal fishing seasons if they are landing red snapper in the participating states during the states' open seasons as set by those states, and described in more detail

below. These annual closed Federal fishing seasons are the seasonal closure for red snapper which is January 1 through May 31 each year, and the closures that occur based on when NMFS projects that the red snapper annual catch targets will be reached. The private angling component includes state-permitted for-hire vessels and any red snapper landings by these for-hire vessels would be counted against the private angling component quota. However, these state-permitted for-hire vessels would not be able to fish in Federal waters. NMFS would set separate Federal seasons for Federally permitted for-hire vessels and private-anglers not covered by any EFP. Red snapper landings would be monitored by the respective states and the state seasons set under the EFPs would close when a state's assigned quota is reached, or projected to be reached. These studies, to be conducted in the exclusive economic zone (EEZ) of the Gulf of Mexico (Gulf), are intended to test the effectiveness of Gulf state management of recreationally caught red snapper. This notice is republished in its entirety and serves to correct information previously published in the **Federal Register** on March 12, 2018, concerning FWC, ADCNR, and TPWD application details.

DATES: Written comments must be received on or before April 2, 2018.
