Notice of Intent To Prepare a Draft Environmental Impact Statement for the Proposed Skookumchuck Wind Energy Project Habitat Conservation Plan in Lewis and Thurston Counties, Washington

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent for scoping; notice of public scoping meeting; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), provide this notice to open a public scoping period and announce a public open house meeting in accordance with requirements of National Environmental Policy Act (NEPA) regulations. We intend to prepare an environmental impact statement (EIS) to evaluate the impacts on the human environment associated with operations of a proposed wind energy project, for which the Service anticipates receipt of an application for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA). Incidental to its operations, the wind project is likely to take the marbled murrelet, listed as threatened under the ESA, as well as the bald eagle and golden eagle, both of which are protected under the Bald and Golden Eagle Protection Act. The project proponent is Skookumchuck Wind Energy Project, LLC, an affiliate of Renewable Energy Services. The wind project would be located near Yelm, Washington, in Lewis and Thurston Counties, and would consist of up to 38 commercial wind turbines and associated infrastructure.

DATES: You may submit information, questions, and comments until June 4, 2018.

Public meetings: During the scoping period, the Service will hold two public scoping open house meetings: One in Lacey, Washington, and one in Centralia, Washington. The Lacey scoping meeting will be held on May 8, 2018, from 6 to 8 p.m., and the Centralia scoping meeting will be held on May 10, 2018, from 6 to 8 p.m.

The public scoping meetings will provide Skookumchuck Wind Energy Project, LLC, and the Service an opportunity to present information pertinent to the wind project and for the public to ask questions and provide written comments and information on the scope of issues and alternatives we should consider when preparing the EIS. No oral comments will be accepted during the scoping meetings.
