I. Discussion

Based upon the application dated July 24, 2014 (ADAMS Package Accession No. ML14251A115), as supplemented on October 31, 2015 (ADAMS Accession No. ML15300A336), June 2, 2016 (ADAMS Accession No. ML16160A410), October 18, 2016 (ADAMS Accession No. ML16298A147), November 14, 2016 (ADAMS Accession No. ML16335A183), September 28, 2017 (ADAMS Accession No. ML17277A074), and January 12, 2018 (ADAMS Accession No. ML18043A034), the NRC has issued a renewed license (ADAMS Accession No. ML18102B175) to KUC, located in Sweetwater County, Wyoming. The renewed license authorizes KUC to possess uranium source and byproduct material at the SUP. In addition, the license authorizes KUC to operate its facilities as proposed in its license renewal application, as amended, and as prescribed in its amended license, after a pre-operational inspection has been completed at the SUP and any safety issues resolved. The renewed license will expire on November 9, 2024.

The licensee's application for a renewed license complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the NRC's rules and regulations. The NRC has made appropriate findings as required by the Act, part 20 of title 10 of the *Code of Federal Regulations* (10 CFR), and 10

CFR part 40, and sets forth those findings in the renewed license. The agency afforded an opportunity for a hearing in the "Notice of Opportunity for a Hearing" published in the **Federal Register** on February 10, 2015 (80 FR 7501). The NRC received no request for a hearing or petition for leave to intervene following the notice.

The NRC staff prepared a safety evaluation report (ADAMS Accession No. ML18052B381) for the renewal of the license and concluded, based on that evaluation, that KUC will continue to meet the regulations in the Act, 10 CFR part 20, and 10 CFR part 40. The NRC staff also prepared an environmental assessment (ADAMS Accession No. ML18135A206) and finding of no significant impact for the renewal of this license, which were published in the **Federal Register** on June 8, 2018 (83 FR 26708). The NRC staff concluded that renewal of this license will not have a significant impact on the quality of the human environment. Concurrent with its license renewal review, the NRC also reviewed KUC's revised request to construct an additional tailings impoundment and evaporation ponds for future operations.
