The burden hours required to complete paper FDA reporting forms (Forms FDA 3500, 3500A, 1932, and 1932a) are reported under OMB control numbers 0910–0284 and 0910–0291. While FDA does not charge for the use of the ESG, the Agency requires respondents to obtain a public key infrastructure certificate to set up the account. This can be obtained in-house or outsourced by purchasing a public key certificate that is valid for 1 year to 3 years. The certificate typically costs from $20 to $30.

Our estimated burden for the information collection reflects an overall increase of 688,547 hours and a corresponding increase of 1,145,763 responses. We attribute this adjustment to an increase in the number of submissions we received over the last few years.

Dated: November 26, 2018.

Leslie Kux,

Associate Commissioner for Policy.
