

Description of the No Action Alternative: Under the No Action Alternative, DLA would not upgrade the Main Gate ACP at Defense Distribution Depot, San Joaquin. The ACP enhancements would not be provided, and operational conditions would not be improved. Gate 2 and the Employee Gate would remain open. Compliance with DoD UFCs 4-010-01 and 4-022-01 would not be met. Critical logistic and security operations at Defense Distribution Depot, San Joaquin would be vulnerable to disruption and potentially long-term denial of service, which could have an immediate impact on the command and control of these operations. DLA police would continue to use inadequate facilities to inspect incoming light vehicles. The No Action Alternative would not meet the purpose of and need for the Proposed Action.

Potential Environmental Impacts: No significant effects on environmental resources would be expected from the Proposed Action. Insignificant adverse effects on noise, air quality, geological resources, water resources, biological resources, health and safety, infrastructure and transportation, and hazardous materials and wastes would be expected. Insignificant beneficial effects on geological resources, water resources, health and safety, infrastructure and transportation, and hazardous materials and wastes would be expected. No impacts on land use or environmental justice would be expected. Details of the environmental consequences are discussed in the EA, which is hereby incorporated by reference.

Determination: DLA has determined that implementation of the Proposed Action will not have a significant effect on the human environment. Human environment was interpreted comprehensively to include the natural and physical environment and the relationship of people with that environment. Specifically, no highly uncertain or controversial impacts, unique or unknown risks, or cumulatively significant effects were identified. Implementation of the Proposed Action will not violate any federal, state, or local laws. Based on the results of the analyses performed during preparation of the EA and consideration of comments received during the public comment period, Mr. Gordon B. Hackett III, Director, DLA Installation Management, concludes that implementation of the Proposed Action at Defense Distribution Depot, San Joaquin does not constitute a major federal action that would significantly affect the quality of the human environment within the context of

NEPA. Therefore, an environmental impact statement for the Proposed Action is not required.
