

appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

1. *Type of Information Collection:* Extension of a currently approved collection.

2. *The Title of the Form/Collection:* Public Safety Officer Medal of Valor (Pub. L. 107–12).

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The application process is managed through the internet, using the Office of Justice Programs' (OJP) MOV online application system at: <https://www.bja.gov/programs/medalofvalor/index.html>.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* The information that is being collected is solicited from federal, state, local and tribal public safety agencies, who wish to nominate their personnel to receive the Public Safety Officer Medal of Valor (MOV). This information is provided on a voluntary basis, includes agency and nominee information along with details about the events for which the nominees are to be considered when determining who will be recommended to receive the MOV.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Over the last four application submission periods, (2011–2012 thru 2014–2015), there were a total of 514 applications received. Taking this number into account, the average number of applications that are anticipated to be received on an annual basis is 128.5. This number does not factor in the ongoing outreach efforts (e.g., marketing and social medial outreach) that are intended to increase the number of annual submissions. In addition, it is projected that the application submission process takes approximately 25 minutes. This would include, reviewing the fields of required and optional information, arranging the information and populating the online application form.

6. *An estimate of the total public burden (in hours) associated with the collection:* Base upon the average number of submissions over the last 4 years, and the estimated time required to complete each submission, the estimated annual public burden would be 53.54 hours.

a. 128.5×25 minutes = 3,212.5 minutes/60 = 53.54 hours.

Address requests for additional information to Dawn Wolfgang at the address above or telephone 703-548-2279.

SUPPLEMENTARY INFORMATION:

OMB Number: 3133-NEW.

Title: Proof of Concept Application for New Charter Organizing Groups.

Type of Review: New collection.

Abstract: The Credit Union Resources and Expansion (CURE) office of NCUA is responsible for the review and approval of charter applications submitted by organizing groups. CURE is enhancing the application process for organizers to submit their information through an automated system to document the four most critical elements to establish a new charter. The four areas are usually the greatest challenge for organizers to accomplish. The automated system will assist organizing groups in demonstrating that they have thoroughly evaluated the proposed credit union's operations by documenting the most critical elements of a new charter, such as the purpose and core values, field of membership, capital, and subscribers.

The data will be reviewed by NCUA to determine the adequacy of a group's proof of concept and provide guidance as needed. The purpose of this information collection is to identify the level of understanding an organizing group has before they make a formal charter application submission as prescribed by Appendix B to 12 CFR part 701.
