DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS–2019–0008]

Next Generation First Responder (NGFR)

AGENCY: Science and Technology Directorate, Department of Homeland Security.

ACTION: 30-Day notice of information collection; New request for comment.

SUMMARY: The Department of Homeland Security (DHS), Science and Technology Directorate (S&T) Next Generation First Responder (NGFR) program seeks to develop and integrate next-generation technologies by testing and evaluating first responder technologies during integration demonstration events. During these events, first responder participants use prototype technologies in a fictional scenario—such as a missing person case, an active shooter event, or a chemical spill—and are asked to share their feedback on how the technology worked in the context of their emergency response to the scenario, including whether the technologies made them more effective, efficient or safe.

The information collected during these events will help provide insight about how to improve technologies for first responders and will help DHS define whether or not the event was successful. Additionally, the feedback and evaluation DHS receives will be used in knowledge products that will then be distributed to other state and local first responder organizations.
