Revisions to Section II.C of the PSR Policy

The Board proposes to revise Section
II.C of the "Federal Reserve Policy on
Payment System Risk" as follows:

C. Pricing

Daylight overdraft fees for
uncollateralized overdrafts (or the
uncollateralized portion of a partially
collateralized overdraft) are calculated
using an annual rate of 50 basis points,
quoted on the basis of a 24-hour day and
a 360-day year. To obtain the effective
annual rate for the standard Fedwire
operating day, the 50-basis-point annual
rate is multiplied by the fraction of a 24-
hour day during which Fedwire is
scheduled to operate. For example,
under a 22-hour scheduled Fedwire
operating day, the effective annual rate
used to calculate daylight overdraft fees
equals 45.83 basis points (50 basis
points multiplied by 22/24).³³ The
effective daily rate is calculated by
dividing the effective annual rate by

that only post at 5:00 p.m.; paper returns of same-
day forward items that only post at 6:00 p.m.; and
FedLine Web returns and FedLine Web NOCs that
only post at 8:30 a.m. and 5:00 p.m., depending on
when the item is received by Reserve Banks.

³¹ With the exception of paper returns of same-
day forward items that only post at 6:00 p.m.

³² With the exception of paper returns and paper
notifications of change (NOCs) of prior-dated items
that only post at 5:00 p.m.; and FedLine Web
returns and FedLine Web NOCs that only post at
8:30 a.m. and 5:00 p.m., depending on when the
item is received by Reserve Banks.

³³ A change in the length of the scheduled
Fedwire operating day should not significantly
change the amount of fees charged because the
effective daily rate is applied to average daylight
overdrafts, the calculation of which would also
reflect the change in the operating day.

360.³⁴ An institution's daily daylight
overdraft charge is equal to the effective
daily rate multiplied by the institution's
average daily uncollateralized daylight
overdraft. * * *

Revisions to Section II.F of the PSR Policy

The Board proposes to revise Section
II.F of the "Federal Reserve Policy on
Payment System Risk" as follows:

F. Special Situations

* * * * *

Certain institutions are subject to a
daylight-overdraft penalty fee levied
against the average daily daylight
overdraft incurred by the institution.
These include Edge and agreement
corporations, bankers' banks that are not
subject to reserve requirements, and
limited-purpose trust companies. The
annual rate used to determine the
daylight-overdraft penalty fee is equal to
the annual rate applicable to the
daylight overdrafts of other institutions
(50 basis points) plus 100 basis points
multiplied by the fraction of a 24-hour
day during which Fedwire is scheduled
to operate (currently 22/24). The daily
daylight-overdraft penalty rate is
calculated by dividing the annual
penalty rate by 360.³⁵ The daylight-
overdraft penalty rate applies to the
institution's daily average daylight
overdraft in its Federal Reserve account.
The daylight-overdraft penalty rate is
charged in lieu of, not in addition to, the
rate used to calculate daylight overdraft
fees for institutions described in this
section. * * *

Administration for Children and Families

[OMB No.: 0970-0389]

Submission for OMB Review; Comment Request

Title: Tribal Maternal, Infant, and Early Childhood Home Visiting Program

Form 1: Demographic and Service Utilization Data.

Description: Description: The Bipartisan Budget Act of 2018 (Pub. L. 115-123). Section 511(h)(2)(A) of Title V of the Social Security Act, created the Maternal, Infant, and Early Childhood Home Visiting Program (MIECHV) and authorized the Secretary of HHS (in Section 511(h)(2)(A)) to award grants to Indian tribes (or a consortium of Indian tribes), tribal organizations, or urban Indian organizations to conduct an early childhood home visiting program. The legislation set aside 3 percent of the total MIECHV program appropriation for grants to tribal entities. Tribal MIECHV grants, to the greatest extent practicable, are to be consistent with the requirements of the MIECHV grants to states and jurisdictions and include conducting a needs assessment and establishing quantifiable, measurable benchmarks.

The Administration for Children and Families, Office of Child Care, in collaboration with the Health Resources and Services Administration, Maternal and Child Health Bureau, awards grants for the Tribal MIECHV Program. The Tribal MIECHV grant awards support 5-year cooperative agreements to conduct community needs assessments, plan for and implement high-quality, culturally-relevant, evidence-based home visiting programs in at-risk Tribal communities, and participate in research and evaluation activities to build the knowledge base on home visiting among Native populations.

In Year 1 of the cooperative agreement, grantees must (1) conduct a comprehensive community needs and readiness assessment and (2) develop a plan to respond to identified needs. Following each year that Tribal MIECHV grantees implement home visiting services, they must submit Form 1: Demographic and Service Utilization Data. The Form 1 data are used to help ACF better understand the population receiving services from Tribal MIECHV grantees and the degree to which they are using services, as well as better understanding of the Tribal MIECHV workforce. Overall, this information collection will provide valuable information to HHS that will guide understanding of the Tribal MIECHV Program and the provision of technical assistance to Tribal MIECHV Program grantees.

Respondents: Tribal Maternal, Infant, and Early Childhood Home Visiting Program Grantees
