The agreements explicitly recognize the special government-to-government relationship between the United States and Indian Tribes, and are based upon mutually agreed upon terms and conditions subject to the requirements of 36 CFR 2.6(f). The agreements serve as the documents through which the NPS authorizes tribal gathering implemented by an accompanying permit authorized by 36 CFR 1.6. Only enrolled members of a federally recognized tribe are allowed to collect plants or plant parts, and the tribe must be traditionally associated with the specific park area. This traditional association must predate the establishment of the park. The plant gathering must meet a traditional purpose that is a customary activity and practice rooted in the history of the tribe and is important for the continuation of the tribe's distinct culture. Authorized plant gathering must be sustainable and may not result in a significant adverse impact on park resources or values. The sale and commercial use of plants or plant parts within areas of the National Park System will continue to be prohibited by the NPS regulations in 36 CFR 2.1(c)(3)(v).

The information collections associated with 36 CFR part 2 include:

(1) The initial request from a tribe that we enter into an agreement with the tribe for gathering and removal of plants or plant parts for traditional purposes. The request must include the information specified in § 2.6(c).

(2) The agreement defines the terms under which the NPS may issue a permit to a tribe for plant gathering purposes. To make determinations based upon tribal requests or to enter into an agreement, we may need to collect information from specific tribal members or tribes who make requests. The agreement must contain the information specified in § 2.6(f).

(3) Tribes may submit an appeal to the NPS to provide additional information on historical relationship of the tribe, traditional uses of plants to be gathered, and/or the impact of gathering on the resource of concern in the event of a denial by the NPS on this issue.
