Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Magnetic Tape Manufacturing Operations (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), NESHAP for Magnetic Tape Manufacturing Operations (EPA ICR Number 1678.10, OMB Control Number 2060–0326), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through September 30, 2019. Public comments were previously requested, via the **Federal Register**, on May 30, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before August 30, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2012–0665, to: (1) EPA online using *www.regulations.gov* (our preferred method), or by email to *docket.oeca@epa.gov,* or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to *oira_submission@omb.eop.gov.* Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Magnetic Tape Manufacturing Operations (40 CFR part 63, subpart EE) were proposed on March 11, 1994, promulgated on December 15, 1994 and amended on both April 9, 1999 and April 7, 2006. These regulations apply to new and existing magnetic tape manufacturing operations located at major sources of hazardous air pollutants (HAP). These magnetic tape manufacturing operations include solvent storage tanks, mix preparation equipment, coating operations, waste handling devices, and condenser vents in solvent recovery. New facilities include those that commenced construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart EE.

In general, all NESHAP standards require initial notification reports, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities: Magnetic tape manufacturing facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart EE).

Estimated number of respondents: 4 (total).

Frequency of response: Initially, quarterly, and semiannually.

Total estimated burden: 2,710 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: $344,000 (per year), which includes $35,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The decrease in burden is due to the more accurate estimates of existing based on the information in ECHO. Therefore, this ICR adjusts the total number of respondents to 4. The decrease in respondents also results in a decrease in responses and operation and maintenance costs.

Courtney Kerwin,

Director, Regulatory Support Division.
