B. Need and Uses

This clearance covers the information that contractors must submit to comply with the Cost Accounting Standards (CAS) under the Federal Acquisition Regulation (FAR). FAR clause 52.230–6, Administration of Cost Accounting Standards, requires contractors performing CAS-covered contracts to submit notifications and descriptions of certain cost accounting practice changes, including revisions to their Disclosure Statements, if applicable.

The threshold for CAS applicability is required by 41 U.S.C. 1502(b)(1)(B) to be the same as the threshold for requesting certified cost or pricing data at FAR 15.403–4(a)(1). The burden was calculated with data from the Federal Procurement Data System for Fiscal year 2016 through 2018 using the increased threshold for requesting certified cost or pricing data of $2 million as proposed by FAR Case 2018–005, Modifications to Cost or Pricing Data Reporting Requirements, per section 811 of the National Defense Authorization Act for Fiscal Year 2018.

9000–0071, Price Redetermination.

B. Needs and Uses

FAR 16.205, Fixed-price contracts with prospective price redetermination, provides for firm fixed prices for an initial period of the contract and prospective redetermination of the price, at stated times during performance, during subsequent periods of performance. Prospective price redetermination is used in negotiated contracts when it is possible to establish a firm fixed price for an initial period, but not for subsequent periods of contract performance. FAR clause 52.216–5, Price Redetermination-Prospective, is included in these solicitations and contracts and requires a contractor to submit to the Government—

- Within an agreed upon timeframe, (1) proposed prices for the upcoming contract period, (2) a statement of costs incurred for the most recent period of performance, and (3) any supporting or relevant documentation; and,
- During periods where firm prices have not been established, a quarterly statement that includes a breakdown of total contract prices, costs, and profit incurred and all invoices accepted for delivered items or services for which final prices have not been established.

FAR 16.206, Fixed price contracts with retroactive price redetermination, provides for a fixed ceiling price, and retroactive price redetermination within the ceiling after completion of the contract. Retroactive price redetermination is used in research and development contracts valued at $150,000 or less when a firm fixed price cannot be negotiated and the contract amount and short performance period make the use of any other fixed-price contract type impracticable. FAR clause 52.216–6, Price Redetermination—Retroactive, is included in these solicitations and contracts and requires contractors to submit to the Government—

- Within an agreed upon timeframe after completion of the contract, (1) the proposed prices, (2) all costs incurred in performing the contract, and (3) any supporting or relevant documentation; and,
- Until final price redetermination has been completed, a quarterly statement that includes a breakdown of total contract prices, costs, and interim profit incurred and all invoices accepted for delivered items.

Contracting officers use the information submitted by respondents to accurately determine the price adjustments to be made under the contract or order in accordance with the clause.
