

Disasters can also disrupt supply chains, on which all people depend, and further aggravate food shortages. Developing compact and innovative advanced food system solutions can further enhance local production and reduce food supply chain challenges, providing new solutions for humanitarian responses to floods and droughts, and new technologies for rapid deployment following disasters.

The Deep Space Food Challenge will identify technology solutions that can:

- Help fill food gaps for a three-year round-trip mission with no resupply
- Feed a crew of four (4)
- Improve the accessibility of food on Earth, in particular, via production directly in urban centers and in remote and harsh environments
- Achieve the greatest amount of food output with minimal inputs and minimal waste
- Create a variety of palatable, nutritious, and safe foods that requires little processing time for crew members

This Challenge seeks to incentivize Teams to develop novel technologies, systems and/or approaches for food production that need not meet the full nutritional requirements of future crews, but can contribute significantly to and be integrated into a comprehensive food system.

I. Prize Amounts

Up to 20 top scoring U.S. Teams that achieve a score in five or more of the scoring categories will receive \$25,000 USD each from NASA and be invited to compete in Phase 2 (should Phase 2 open for competition). Teams must meet the eligibility requirements for the NASA Prize in order to be eligible to receive a prize from NASA.

II. Eligibility To Participate and Win Prize Money

To be eligible to win a prize, competitors must register and comply with all requirements in the Official Rules. Interested Teams should refer to the official Challenge website (www.deepspacefoodchallenge.org) for full details on eligibility and registration.

III. Official Rules

The complete official rules for the Deep Space Food Challenge can be found at:

www.deepspacefoodchallenge.org.

BILLING CODE 7510-13-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-90887; File No. SR-FINRA-2021-001]

Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the FINRA Rule 6800 Series (Consolidated Audit Trail Compliance Rule) Relating to Allocation Reporting Requirements

January 11, 2021.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on January 4, 2021, the Financial Industry Regulatory Authority, Inc. (“FINRA”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by FINRA. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

FINRA is proposing to amend the FINRA Rule 6800 Series, FINRA’s compliance rule (“Compliance Rule”) regarding the National Market System Plan Governing the Consolidated Audit Trail (the “CAT NMS Plan” or “Plan”)³ to be consistent with a conditional exemption granted by the Commission from certain allocation reporting requirements set forth in Sections 6.4(d)(ii)(A)(1) and (2) of the CAT NMS Plan (“Allocation Exemption”).⁴

The text of the proposed rule change is available on FINRA’s website at <http://www.finra.org>, at the principal office of FINRA and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, FINRA included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements

may be examined at the places specified in Item IV below. FINRA has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to amend the Rule 6800 Series to be consistent with the Allocation Exemption. The Commission granted the relief conditioned upon the Participants’ adoption of Compliance Rules that implement the alternative approach to reporting allocations to the Central Repository described in the Allocation Exemption (referred to as the “Allocation Alternative”).

(1) Request for Exemptive Relief

Pursuant to Section 6.4(d)(ii)(A) of the CAT NMS Plan, each Participant must, through its Compliance Rule, require its Industry Members to record and report to the Central Repository, if the order is executed, in whole or in part: (1) An Allocation Report;⁵ (2) the SRO- Assigned Market Participant Identifier of the clearing broker or prime broker, if applicable; and the (3) CAT-Order-ID of any contra-side order(s). Accordingly, FINRA and the other Participants implemented Compliance Rules that require their Industry Members that are executing brokers to submit to the Central Repository, among other things, Allocation Reports and the SRO- Assigned Market Participant Identifier of the clearing broker or prime broker, if applicable.

On August 27, 2020, the Participants submitted to the Commission a request for an exemption from certain allocation reporting requirements set forth in Sections 6.4(d)(ii)(A)(1) and (2) of the CAT NMS Plan (“Exemption Request”).⁶ In the Exemption Request, the Participants requested that they be permitted to implement the Allocation Alternative, which, as noted above, is an

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the Compliance Rule.

⁴ See Securities Exchange Act Release No. 90223 (October 19, 2020), 85 FR 67576 (October 23, 2020) (“Allocation Exemptive Order”).

⁵ Section 1.1 of the CAT NMS Plan defines an “Allocation Report” as “a report made to the Central Repository by an Industry Member that identifies the Firm Designated ID for any account(s), including subaccount(s), to which executed shares are allocated and provides the security that has been allocated, the identifier of the firm reporting the allocation, the price per share of shares allocated, the side of shares allocated, the number of shares allocated to each account, and the time of the allocation; provided for the avoidance of doubt, any such Allocation Report shall not be required to be linked to particular orders or executions.”

⁶ See letter from the Participants to Vanessa Countryman, Secretary, Commission, dated August 27, 2020 (the “Exemption Request”).

alternative approach to reporting allocations to the Central Repository. Under the Allocation Alternative, any Industry Member that performs an allocation to a client account would be required under the Compliance Rule to submit an Allocation Report to the Central Repository when shares/contracts are allocated to a client account regardless of whether the Industry Member was involved in executing the underlying order(s). Under the Allocation Alternative, a “client account” would be any account that is not owned or controlled by the Industry Member.

In addition, under the Allocation Alternative, an “Allocation” would be defined as: (1) The placement of shares/contracts into the same account for which an order was originally placed; or (2) the placement of shares/contracts into an account based on allocation instructions (e.g., subaccount allocations, delivery versus payment (“DVP”) allocations). Pursuant to this definition and the proposed Allocation Alternative, an Industry Member that performs an Allocation to an account that is not a client account, such as proprietary accounts and events including step-outs,⁷ or correspondent flips,⁸ would not be required to submit an Allocation Report to the Central Repository for that allocation, but could do so on a voluntary basis. Industry Members would be allowed to report Allocations to accounts other than client accounts; in that instance, such Allocations must be marked as Allocations to accounts other than client accounts.

(a) Executing Brokers and Allocation Reports

To implement the Allocation Alternative, the Participants requested exemptive relief from Section 6.4(d)(ii)(A)(1) of the CAT NMS Plan, to the extent that the provision requires each Participant to, through its Compliance Rule, require its Industry

⁷ “A step-out allows a member to allocate all or part of a client’s position from a previously executed trade to the client’s account at another broker-dealer. In other words, a step-out functions as a client’s position transfer, rather than a trade; there is no exchange of shares and funds and no change in beneficial ownership.” See Trade Reporting Frequently Asked Questions, Section 301, available at: www.finra.org/filing-reporting/market-transparency-reporting/trade-reporting-faq.

⁸ Correspondent clearing flips are the movement of a position from an executing broker’s account to a different account for clearance and settlement, allowing a broker-dealer to execute a trade through another broker-dealer and settle the trade in its own account. See, e.g., The Depository Trust & Clearing Corporation, Correspondent Clearing, available at: www.dtcc.com/clearing-services/equities-tradecapture/correspondent-clearing.

Members that are executing brokers, who do not perform Allocations, to record and report to the Central Repository, if the order is executed, in whole or in part, an Allocation Report. Under the Allocation Alternative, when an Industry Member other than an executing broker (e.g., a prime broker or clearing broker) performs an Allocation, that Industry Member would be required to submit the Allocation Report to the Central Repository. When an executing broker performs an Allocation for an order that is executed, in whole or in part, the burden of submitting an Allocation Report to the Central Repository would remain with the executing broker under the Allocation Alternative. In certain circumstances this would result in multiple Allocation Reports—the executing broker (if self-clearing) or its clearing firm would report individual Allocation Reports identifying the specific prime broker to which shares/contracts were allocated and then each prime broker would itself report an Allocation Report identifying the specific customer accounts to which the shares/contracts were finally allocated.

The Participants stated that granting exemptive relief from submitting Allocation Reports for executing brokers who do not perform an Allocation, and requiring the Industry Member other than the executing broker that is performing the Allocation to submit such Allocation Reports, is consistent with the basic approach taken by the Commission in adopting Rule 613 under the Exchange Act. Specifically, the Participants stated that they believe that the Commission sought to require each broker-dealer and exchange that touches an order to record the required data with respect to actions it takes on the order.⁹ Without the requested exemptive relief, executing brokers that do not perform Allocations would be required to submit Allocation Reports. In addition, the Participants stated that, because shares/contracts for every execution must be allocated to an account by the clearing broker in such circumstances, there would be no loss of information by shifting the reporting obligation from the executing broker to the clearing broker.

(b) Identity of Prime Broker

To implement the Allocation Alternative, the Participants also requested exemptive relief from Section 6.4(d)(ii)(A)(2) of the CAT NMS Plan, to the extent that the provision requires

⁹ See Securities Exchange Act Release No. 67457 (July 18, 2012), 77 FR 45722, 45748 (August 1, 2012).

each Participant to, through its Compliance Rule, require its Industry Members to record and report to the Central Repository, if an order is executed, in whole or in part, the SRO-Assigned Market Participant Identifier of the prime broker, if applicable. Currently, under the CAT NMS Plan, an Industry Member is required to report the SRO-Assigned Market Participant Identifier of the clearing broker or prime broker in connection with the execution of an order, and such information would be part of the order’s lifecycle, rather than in an Allocation Report that is not linked to the order’s lifecycle.¹⁰ Under the Allocation Alternative, the identity of the prime broker would be required to be reported by the clearing broker on the Allocation Report, and, in addition, the prime broker itself would be required to report the ultimate allocation, which the Participants believe would provide more complete information.

The Participants stated that associating a prime broker with a specific execution, as is currently required by the CAT NMS Plan, does not reflect how the allocation process works in practice as allocations to a prime broker are done post-trade and are performed by the clearing broker of the executing broker. The Participants also stated that with the implementation of the Allocation Alternative, it would be duplicative for the executing broker to separately identify the prime broker for allocation purposes.

The Participants stated that if a particular customer only has one prime broker, the identity of the prime broker can be obtained from the customer and account information through the DVP accounts for that customer that contain the identity of the prime broker. The Participants further stated that Allocation Reports related to those executions would reflect that shares/contracts were allocated to the single prime broker. The Participants believe that there is no loss of information through the implementation of the Allocation Alternative compared to what is required in the CAT NMS Plan and that this approach does not decrease the regulatory utility of the CAT for single prime broker circumstances.

In cases where a customer maintains relationships with multiple prime brokers, the Participants asserted that the executing broker will not have information at the time of the trade as to which particular prime broker may be

¹⁰ The Participants did not request exemptive relief relating to the reporting of the SRO-Assigned Market Participant Identifier of clearing brokers.

allocated all or part of the execution. Under the Allocation Alternative, the executing broker (if self-clearing) or its clearing firm would report individual Allocation Reports identifying the specific prime broker to which shares/contracts were allocated and then each prime broker would itself report an Allocation Report identifying the specific customer accounts where the shares/contracts were ultimately allocated. To determine the prime broker for a customer, a regulatory user would query the customer and account database using the customer's CCID to obtain all DVP accounts for the CCID at broker-dealers. The Participants state that when a customer maintains relationships with multiple prime brokers, the customer typically has a separate DVP account with each prime broker, and the identities of those prime brokers can be obtained from the customer and account information.

(c) Additional Conditions to Exemptive Relief

In the Exemption Request, the Participants included certain additional conditions for the requested relief. Currently, the definition of Allocation Report in the CAT NMS Plan only refers to shares. To implement the Allocation Alternative, the Participants proposed to require that all required elements of Allocation Reports apply to both shares and contracts, as applicable, for all Eligible Securities. Specifically, Participants would require the reporting of the following in each Allocation Report: (1) The FDID for the account receiving the allocation, including subaccounts; (2) the security that has been allocated; (3) the identifier of the firm reporting the allocation; (4) the price per share/contracts of shares/contracts allocated; (5) the side of shares/contracts allocated; (6) the number of shares/contracts allocated; and (7) the time of the allocation.

Furthermore, to implement the Allocation Alternative, the Participants proposed to require the following information on all Allocation Reports: (1) Allocation ID, which is the internal allocation identifier assigned to the allocation event by the Industry Member; (2) trade date; (3) settlement date; (4) IB/correspondent CRD Number (if applicable); (5) FDID of new order(s) (if available in the booking system);¹¹

¹¹ The Participants propose that for scenarios where the Industry Member responsible for reporting the Allocation has the FDID of the related new order(s) available, such FDID must be reported. This would include scenarios in which: (1) The FDID structure of the top account and subaccounts is known to the Industry Member responsible for reporting the Allocation(s); and (2) the FDID

(6) allocation instruction time (optional); (7) if the account meets the definition of institution under FINRA Rule 4512(c);¹² (8) type of allocation (allocation to a custody account, allocation to a DVP account, step out, correspondent flip, allocation to a firm owned or controlled account, or other non-reportable transactions (e.g., option exercises, conversions); (9) for DVP allocations, custody broker-dealer clearing number (prime broker) if the custodian is a U.S. broker-dealer, DTCC number if the custodian is a U.S. bank, or a foreign indicator, if the custodian is a foreign entity; and (10) if an allocation was cancelled, a cancel flag, which indicates that the allocation was cancelled, and a cancel timestamp, which represents the time at which the allocation was cancelled.

(2) Proposed Rule Changes to Implement Exemptive Relief

On October 29, 2020, the Commission granted the exemptive relief requested in the Exemption Request. The Commission granted the relief conditioned upon the adoption of Compliance Rules that implement the reporting requirements of the Allocation Alternative. Accordingly, FINRA proposes the following changes to its Compliance Rule to implement the reporting requirements of the Allocation Alternative.

(a) Definition of Allocation

FINRA proposes to add a definition of "Allocation" as new paragraph (c) to Rule 6810.¹³ Proposed paragraph (c) of Rule 6810 would define an "Allocation" to mean "(1) the placement of shares/contracts into the same account for which an order was originally placed; or (2) the placement of shares/contracts into an account based on allocation instructions (e.g., subaccount allocations, delivery versus payment ("DVP") allocations)." The SEC stated in the Allocation Exemption that this definition of "Allocation" is reasonable.

structure used by the IB/Correspondent when reporting new orders is known to the clearing firm reporting the related Allocations.

¹² FINRA Rule 4512(c) states the for purposes of the rule, the term "institutional account" means the account of: (1) A bank, savings and loan association, insurance company or registered investment company; (2) an investment adviser registered either with the SEC under Section 203 of the Investment Advisers Act or with a state securities commission (or any agency or office performing like functions); or (3) any other person (whether a natural person, corporation, partnership, trust or otherwise) with total assets of at least \$50 million.

¹³ FINRA proposes to renumber the definitions in Rule 6810 to accommodate the addition of this new definition of "Allocation" and the new definition of "Client Account" discussed below.

(b) Definition of Allocation Report

FINRA proposes to amend the definition of "Allocation Report" set forth in Rule 6810(c) (to be renumbered as Rule 6810(d)) to reflect the requirements of the Allocation Exemption. Rule 6810(c) defines the term "Allocation Report" to mean:

A report made to the Central Repository by an Industry Member that identifies the Firm Designated ID for any account(s), including subaccount(s), to which executed shares are allocated and provides the security that has been allocated, the identifier of the firm reporting the allocation, the price per share of shares allocated, the side of shares allocated, the number of shares allocated to each account, and the time of the allocation; provided, for the avoidance of doubt, any such Allocation Report shall not be required to be linked to particular orders or executions.

FINRA proposes to amend this definition in two ways: (1) Applying the requirements for Allocation Reports to contracts in addition to shares; and (2) requiring the reporting of additional elements for the Allocation Report.

(i) Shares and Contracts

The requirements for Allocation Reports apply only to shares, as the definition of "Allocation Report" in Rule 6810(c) refers to shares, not contracts. In the Allocation Exemption, the Commission stated that applying the requirements for Allocation Reports to contracts in addition to shares is appropriate because CAT reporting requirements apply to both options and equities. Accordingly, the SEC stated that the Participants would be required to modify their Compliance Rules such that all required elements of Allocation Reports apply to both shares and contracts, as applicable, for all Eligible Securities. Therefore, FINRA proposes to amend Rule 6810(c) (to be renumbered as Rule 6810(d)) to apply to contracts, as well as shares. Specifically, FINRA proposes to add references to contracts to the definition of "Allocation Report" to the following phrases: "the Firm Designated ID for any account(s), including subaccount(s), to which executed shares/contracts are allocated," "the price per share/contract of shares/contracts allocated," "the side of shares/contracts allocated," and "the number of shares/contracts allocated to each account."

(ii) Additional Elements

The Commission also conditioned the Allocation Exemption on the Participants amending their Compliance Rules to require the ten additional elements in Allocation Reports described above. Accordingly, FINRA

proposes to require these additional elements in Allocation Reports.

Specifically, FINRA proposes to amend the definition of “Allocation Report” in Rule 6810(c) (to be renumbered as Rule 6810(d)) to include the following elements, in addition to those elements currently required under the CAT NMS Plan:

(6) The time of the allocation; (7) Allocation ID, which is the internal allocation identifier assigned to the allocation event by the Industry Member; (8) trade date; (9) settlement date; (10) IB/ correspondent CRD Number (if applicable); (11) FDID of new order(s) (if available in the booking system); (12) allocation instruction time (optional); (12) if account meets the definition of institution under FINRA Rule 4512(c); (13) type of allocation (allocation to a custody account, allocation to a DVP account, step-out, correspondent flip, allocation to a firm owned or controlled account, or other non-reportable transactions (e.g., option exercises, conversions); (14) for DVP allocations, custody broker-dealer clearing number (prime broker) if the custodian is a U.S. broker-dealer, DTCC number if the custodian is a U.S. bank, or a foreign indicator, if the custodian is a foreign entity; and (15) if an allocation was cancelled, a cancel flag indicating that the allocation was cancelled, and a cancel timestamp, which represents the time at which the allocation was cancelled.

(c) Allocation Reports

(i) Executing Brokers That Do Not Perform Allocations

The Commission granted the Participants an exemption from the requirement that the Participants, through their Compliance Rule, require executing brokers that do not perform Allocations to submit Allocation Reports. The Commission stated that it understands that executing brokers that are not self-clearing do not perform allocations themselves, and such allocations are handled by prime and/or clearing brokers, and these executing brokers therefore do not possess the requisite information to provide Allocation Reports. Accordingly, FINRA proposes to eliminate Rule 6830(a)(2)(A)(i),¹⁴ which requires an Industry Member to record and report to the Central Repository an Allocation Report if the order is executed, in whole or in part, and to replace this provision with proposed Rule 6830(a)(2)(F) as discussed below.

¹⁴ FINRA proposes to renumber Rule 6830(a)(2)(A)(ii) and (iii) as Rule 6830(a)(2)(A)(i) and (ii) in light of the proposed deletion of Rule 6830(a)(2)(A)(i).

(ii) Industry Members That Perform Allocations

The Allocation Exemption requires the Participants to amend their Compliance Rules to require Industry Members to provide Allocation Reports to the Central Repository any time they perform Allocations to a client account, whether or not the Industry Member was the executing broker for the trades. Accordingly, the Commission conditioned the Allocation Exemption on the Participants adopting Compliance Rules that require prime and/or clearing brokers to submit Allocation Reports when such brokers perform allocations, in addition to requiring executing brokers that perform allocations to submit Allocation Reports. The Commission determined that such exemptive relief would improve efficiency and reduce the costs and burdens of reporting allocations for Industry Members because the reporting obligation would belong to the Industry Member with the requisite information, and executing brokers that do not have the information required on an Allocation Report would not have to develop the infrastructure and processes required to obtain, store and report the information. The Commission stated that this exemptive relief should not reduce the regulatory utility of the CAT because an Allocation Report would still be submitted for each executed trade allocated to a client account, which in certain circumstances could still result in multiple Allocation Reports,¹⁵ just not necessarily by the executing broker.

In accordance with the Allocation Exemption, FINRA proposes to add proposed Rule 6830(a)(2)(F) to the Compliance Rule. Proposed Rule 6830(a)(2)(F) would require Industry Members to record and report to the Central Repository “an Allocation Report any time the Industry Member performs an Allocation to a Client Account, whether or not the Industry Member was the executing broker for the trade.”

(iii) Client Accounts

In the Allocation Exemption, the Commission also exempted the Participants from the requirement that they amend their Compliance Rules to require Industry Members to report

¹⁵ As noted above, under the Allocation Alternative, for certain executions, the executing broker (if self-clearing) or its clearing firm would report individual Allocation Reports identifying the specific prime broker to which shares/contracts were allocated and then each prime broker would itself report an Allocation Report identifying the specific customer accounts to which the shares/contracts were finally allocated.

Allocations for accounts other than client accounts. The Commission believes that allocations to client accounts, and not allocations to proprietary accounts or events such as step-outs and correspondent flips, provide regulators the necessary information to detect abuses in the allocation process because it would provide regulators with detailed information regarding the fulfillment of orders submitted by clients, while reducing reporting burdens on broker-dealers. For example, Allocation Reports would be required for allocations to registered investment advisor and money manager accounts. The Commission further believes that the proposed approach should facilitate regulators’ ability to distinguish Allocation Reports relating to allocations to client accounts from other Allocation Reports because Allocations to accounts other than client accounts would have to be identified as such. This approach could reduce the time CAT Reporters expend to comply with CAT reporting requirements and lower costs by allowing broker-dealers to use existing business practices.

To clarify that an Industry Member must report an Allocation Report solely for Allocations to a client account, proposed Rule 6830(a)(2)(F) specifically references “Client Accounts,” as discussed above. In addition, FINRA proposes to add a definition of “Client Account” as proposed Rule 6810(l). Proposed Rule 6810(l) would define a “Client Account” to mean “for the purposes of an Allocation and Allocation Report, any account or subaccount that is not owned or controlled by the Industry Member.”

(d) Identity of Prime Broker

FINRA also proposes to amend Rule 6830(a)(2)(A)(ii) to eliminate the requirement for executing brokers to record and report the SRO-Assigned Market Participant Identifier of the prime broker. Rule 6830(a)(2)(A)(ii) states that each Industry Member is required to record and report to the Central Repository, if the order is executed, in whole or in part, the “SRO-Assigned Market Participant Identifier of the clearing broker or prime broker, if applicable.” FINRA proposes to delete the phrase “or prime broker” from this provision. Accordingly, each Industry Member that is an executing broker would no longer be required to report the SRO-Assigned Market Participant Identifier of the prime broker.

As the Commission noted in the Allocation Exemption, exempting the Participants from the requirement that they, through their Compliance Rules,

require executing brokers to provide the SRO-Assigned Market Participant Identifier of the prime broker is appropriate because, as stated by the Participants, allocations are done on a post-trade basis and the executing broker will not have the requisite information at the time of the trade. Because an executing broker, in certain circumstances, does not have this information at the time of the trade, this relief relieves executing brokers of the burdens and costs of developing infrastructure and processes to obtain this information in order to meet the contemporaneous reporting requirements of the CAT NMS Plan.

As the Commission noted in the Allocation Exemption, although executing brokers would no longer be required to provide the prime broker information, regulators will still be able to determine the prime broker(s) associated with orders through querying the customer and account information database. If an executing broker has only one prime broker, the identity of the prime broker can be obtained from the customer and account information associated with the executing broker. For customers with multiple prime brokers, the identity of the prime brokers can be obtained from the customer and account information which will list the prime broker, if there is one, that is associated with each account.

FINRA has filed the proposed rule change for immediate effectiveness. The proposed rule change will be operative 30 days after the date of the filing.

2. Statutory Basis

FINRA believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act,¹⁶ which requires, among other things, that FINRA rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and Section 15A(b)(9) of the Act,¹⁷ which requires that FINRA rules not impose any burden on competition that is not necessary or appropriate.

FINRA believes that the proposed rule change is consistent with the Act because it is consistent with, and implements, the Allocation Exemption, and is designed to assist FINRA and its Industry Members in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that the Plan “is necessary and appropriate

in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹⁸ To the extent that the proposed rule change implements the Plan, and applies specific requirements to Industry Members, FINRA believes that it furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

FINRA does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. FINRA notes that the proposed rule change is consistent with the Allocation Exemption and is designed to assist FINRA in meeting its regulatory obligations pursuant to the Plan. FINRA also notes that the proposed rule change will apply equally to all Industry Members. FINRA anticipates no new costs to member firms reporting to the CAT as a result of this proposed rule change, because any related costs have already been built in the technical specifications previously determined and shared broadly in conformance with the CAT NMS Plan and the Allocation Exemption. In addition, FINRA and all national securities exchanges are proposing this amendment to their Compliance Rules. Therefore, this is not a competitive rule filing and does not impose a burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section

19(b)(3)(A) of the Act¹⁹ and Rule 19b-4(f)(6) thereunder.²⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-FINRA-2021-001 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090. All submissions should refer to File Number SR-FINRA-2021-001. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Establish a Policy Relating to Billing Errors

January 11, 2021.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on December 31, 2020, Cboe EDGX Exchange, Inc. (the “Exchange” or “EDGX”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange filed the proposal as a “non-controversial” proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act³ and Rule 19b-4(f)(6) thereunder.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its options and equities fees schedules to adopt a provision relating to billing errors and fee disputes.

The text of the proposed rule change is also available on the Exchange’s website (<http://markets.cboe.com/us/>

[options/regulation/rule_filings/edgx/](#)), at the Exchange’s Office of the Secretary, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its options and equities fees schedules to adopt a provision relating to billing errors and fee disputes. Particularly, the Exchange proposes to provide that after three calendar months, all fees and rebates assessed by the Exchange would be considered final. More specifically, the Exchange would adopt language in the fees schedules that would provide that all fees and rebates assessed prior to the three full calendar months before the month in which the Exchange becomes aware of a billing error shall be considered final. Particularly, the Exchange will resolve an error by crediting or debiting Members and Non-Members based on the fees or rebates that should have been applied in the three full calendar months preceding the month in which the Exchange became aware of the error, including to all impacted transactions that occurred during those months.⁵ The Exchange will apply the three month look back regardless of whether the error was discovered by the Exchange or by a Member or Non-Member that submitted a fee dispute to the Exchange. The Exchange also proposes to provide all

⁵ For example, if the Exchange becomes aware of a transaction fee billing error on January 4, 2021, the Exchange will resolve the error by crediting or debiting Members based on the fees or rebates that should have been applied to any impacted transactions during October, November and December 2020. The Exchange notes that because it bills in arrears, the Exchange would be able to correct the error in advance of issuing the January 2021 invoice and therefore, transactions impacted through the date of discovery (in this example, January 4, 2021) and thereafter, would be billed correctly.

disputes concerning fees and rebates assessed by the Exchange would have to be submitted to the Exchange in writing and accompanied by supporting documentation.

The purpose of the proposed change is to encourage Members and Non-Members to promptly review their Exchange invoices so that any disputed charges can be addressed in a timely manner. The Exchange notes that it provides Members with both daily and monthly fee reports and thus believes they should be aware of any potential billing errors within three months. Requiring that Members and Non-Members submit disputes in writing and provide supporting documentation encourages them to promptly review their invoices so that any disputed charges can be addressed in a timely manner while the information and data underlying those charges (e.g., applicable fees and order information) is still easily and readily available. This practice will avoid issues that may arise when Members or Non-Members do not dispute an invoice in a timely manner and will conserve Exchange resources that would have to be expended to resolve untimely billing disputes. As such, the proposed rule change would alleviate administrative burdens related to billing disputes, which could divert staff resources away from the Exchange’s regulatory and business purposes. The proposed rule change to provide all fees and rebates are final after three calendar months also provides both the Exchange and Members and Non-Members finality and the ability to close their books after a known period of time.

The Exchange notes that a number of exchanges have explicitly stated that they consider all fees to be final after a similar period of time.⁶ Additionally, several other exchanges have adopted similar provisions in their rules that provide for a process for Members and Non-Members to submit fee disputes.⁷ The proposed billing policy will apply to all charges and rebates reflected in the Exchange’s fees schedules.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the
