This is a proposed extension of the ICR which is currently approved through October 31, 2021. Public comments were previously requested via the **Federal Register** on March 29, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before November 24, 2021.

Abstract: Under section 8(c) of the Toxic Substances Control Act (TSCA), 15 U.S.C. 2607(c), companies that manufacture, process, or distribute chemicals are required to maintain records of significant adverse reactions to health or the environment alleged to have been caused by such chemicals. Since TSCA section 8(c) includes no automatic reporting provision, EPA can obtain and use the information contained in company files only by inspecting those files or requiring reporting of records that relate to specific substances of concern. Therefore, under certain conditions, and using the provisions found in 40 CFR part 717, EPA may require companies to report such allegations to the Agency. EPA uses such information on a case specific basis to corroborate suspected adverse health or environmental effects of chemicals already under review by EPA. The information is also useful to identify trends of adverse effects across the industry that may not be apparent to any one chemical company. This ICR addresses the information reporting and

recordkeeping requirements found in 40 CFR part 717. Respondents may claim all or part of a notice confidential.

Form Numbers: None.

Respondents/Affected Entities:

Companies that manufacture, process, import, or distribute in commerce chemical substances or mixtures.

Respondent's obligation to respond: Mandatory (40 CFR part 717).

Estimated number of respondents: 13,160 (total).

Frequency of response: 1.

Total Estimated burden: 25,527 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total Estimated cost: \$4,701,622 (per year) includes \$0 annualized capital or operation and maintenance costs.

Changes in the Estimates: There is no change in the estimated annual burden compared with the ICR currently approved by OMB. There is, however, an increase in the estimated total burden cost from \$1,987,487 to \$4,701,622 that is related to an adjustment in the burden cost calculation associated with projected compliance determination activities. This change is an adjustment.

Director, Regulatory Support Division.
