**Investigations Regarding Eligibility To Apply for Trade Adjustment Assistance**

In accordance with the Trade Act of 1974 (19 U.S.C. 2271, *et seq.*) (“Act”), as amended, the Department of Labor herein presents notice of investigations regarding eligibility to apply for trade adjustment assistance under Chapter 2 of the Act (“TAA”) for workers by (TA-W) started during the period of January 1, 2022 through January 31, 2022.

This notice includes instituted initial investigations following the receipt of validly filed petitions. Furthermore, if applicable, this notice includes investigations to reconsider negative

initial determinations or terminated initial investigations following the receipt of a valid application for reconsideration.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. Any persons showing a substantial interest in the subject matter of the investigations may request a public hearing provided such request is filed in writing with the Administrator, Office of Trade Adjustment Assistance, at the address shown below, no later than ten days after publication in **Federal Register**.

**Initial Investigations**

The following are initial investigations commenced following the receipt of a properly filed petition.

| TA-W No. | Subject firm  | Location          | Inv start date |
|----------|---|-------------------|----------------|
| 98,154   | Apical Industries dba DART Aerospace LTD              | Vista, CA         | 1/5/2022       |
| 98,155   | Slant/Fin Corporation                                 | Greenvale, NY     | 1/5/2022       |
| 98,156   | Sensata Technologies                                  | Carpinteria, CA   | 1/6/2022       |
| 98,157   | Bruker Handheld                                       | Kennewick, WA     | 1/10/2022      |
| 98,158   | MaraNatha-Hain Celestial                              | Ashland, OR       | 1/10/2022      |
| 98,159   | CNH Industrial  | Burlington, IA    | 1/11/2022      |
| 98,160   | Superior Industries                                   | Fayetteville, AR  | 1/11/2022      |
| 98,161   | Aspen Surgical Products                               | Coralville, IA    | 1/12/2022      |

## DEPARTMENT OF LABOR

### Bureau of Labor Statistics

#### Request for Comment

**AGENCY:** Bureau of Labor Statistics, Department of Labor.

**ACTION:** Request for comments.

**SUMMARY:** The Department of Labor through the Bureau of Labor Statistics (BLS) is currently soliciting comments concerning the planning, development, and implementation of a new National Longitudinal Survey of Youth (NLSY) cohort.

**DATES:** Written comments must be submitted by the methods listed in the **ADDRESSES** section of this notice on or before May 6, 2022.

**ADDRESSES:** You may submit written comments by one of the following methods:

*On-line:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

*Email:* [nlsy26info@bls.gov](mailto:nlsy26info@bls.gov).

**FOR FURTHER INFORMATION CONTACT:** Safia Abdirizak, Economist, Bureau of Labor Statistics, [abdirizak.safia@bls.gov](mailto:abdirizak.safia@bls.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

BLS is currently developing plans for a new NLSY cohort. The BLS provided Congress with a 5-year development plan, which would culminate in fielding a first round of collection in 2026. This

development plan is available in section IV below and at <https://www.bls.gov/nls/nlsy26.htm>. As part of this process, BLS is committed to engaging with new and experienced users of NLSY data to maximize the eventual utility of the new NLSY cohort. This request for information is one avenue of this engagement plan. The development of a new NLSY cohort will build upon BLS experience and analysis of its two ongoing NLSY cohorts.

##### 1. National Longitudinal Survey of Youth 1979 (NLSY79)

The NLSY79 sample is composed of 12,686 young men and women who were born in the years 1957 to 1964. Data were first collected in 1979, when sample members were ages 14–22. In December 2021, BLS completed round 29 of data collection with NLSY79 sample members who were ages 55 to 63. BLS has followed this cohort of late Baby Boomers for over 40 years, recording their lives from their teens into their 50s and early 60s.

##### 2. National Longitudinal Survey of Youth 1997 (NLSY97)

The NLSY97 began over 20 years ago with the collection of data from a sample of 8,984 youths who were born in the years 1980 to 1984. The sample members were ages 12–16 as of December 31, 1996. In Fall 2021, BLS began round 20 of data collection for this cohort with sample members ages 36 to 41.

More information about the ongoing NLSY cohorts is available at <https://www.bls.gov/nls/>.

The longitudinal approach of the NLSY cohorts provides data to economists, sociologists, and other researchers in government, academia, and private organizations to answer such questions as how wages change over time, how schooling and training contribute to the development and maintenance of skills to obtain and keep good jobs over one's career, how individuals navigate work and family responsibilities, and how individuals plan for retirement as their careers come to an end. To continue building on these

longstanding strengths of the NLSY cohorts, BLS envisions that a new youth cohort would cover a broad range of topics related to labor market outcomes for a new generation entering the labor force.

Respondents in previous NLSY cohorts have been asked a core set of questions that provide extensive information on employment, training, education, income, assets, marital status, fertility, health, attitudes toward work, experiences with the criminal justice system, household composition, and occupational and geographical mobility. In addition, the previous cohorts were administered cognitive assessments. BLS anticipates that the new youth cohort will cover these same topics and include assessments of cognitive and non-cognitive skills, thus enabling the study of educational experiences, achievement, cognitive and non-cognitive skills, and the transition from school to work; training programs and training in the workplace; the value of early-career job exploration; geographic mobility; relationships between the workplace and the well-being of the family and family transitions; drug and alcohol use; juvenile delinquency and criminal behavior; fertility and childbearing; and employment and earnings of workers.

As with past NLSY cohorts, a new cohort would collect detailed information about each job held, including start and stop dates for each job and characteristics of each job such as wages, hours, occupation, and industry. Information about periods when no jobs are held would also be collected. Detailed information would be collected on education and training, and events such as marriage and divorce, as well as fertility, all of which affect labor market choices.

More information about the NLSY26 cohort and current BLS plans is available at <https://www.bls.gov/nls/nlsy26.htm>.

##### II. Current and Planned Engagement

In October 2020, the National Science Foundation funded a “Shaping a New National Longitudinal Survey of Youth”
