Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The AANAPISI Program provides grants to eligible institutions of higher education (IHEs) to enable them to improve and expand their capacity to serve Asian American and Native American Pacific Islander students. Institutions may use these grants to plan, develop, or implement activities that strengthen the institution's services leading to student success.

Background: It is well documented that the novel coronavirus 2019 (COVID–19) pandemic is having a negative impact on Asian American and Pacific Islander students. Hate crimes against Asian American and Pacific Islanders in the United States surged during the COVID–19 pandemic.¹ Anti-Asian racism is impacting the mental

health of Asian American and Pacific Islanders as well.² While the population of Asian American and Pacific Islanders (AAPI) continues to grow on college campuses, research shows they are least likely to seek help. Only two out of 10 AAPI college students experiencing a mental health issue receives treatment.³ To combat these problems, this competition includes two competitive preference priorities aimed at providing comprehensive student supports.

Priorities: This notice contains two competitive preference priorities. The priorities are from the Secretary's Supplemental Priorities and Definitions for Discretionary Grant Programs, published in the **Federal Register** on December 10, 2021 (86 FR 70612) (Supplemental Priorities).

Competitive Preference Priorities: For FY 2022 and any subsequent year in which we make awards from the list of unfunded applications from this competition, these priorities are competitive preference priorities. Under 34 CFR 75.105(c)(2)(i), we award up to an additional five points to an application for each priority, depending on how well the application meets one or more of these priorities. Applicants may apply to one or both priorities for a total of 10 additional points.

These priorities are:

Competitive Preference Priority 1: Meeting Student Social, Emotional, and Academic Needs (up to 5 points).

Projects that are designed to improve students' social, emotional, academic, and career development, with a focus on underserved students, in the following area:

(a) Creating a positive, inclusive, and identity-safe climate at institutions of higher education through one or more of the following activities:

(1) Fostering a sense of belonging and inclusion for underserved students.

(2) Implementing evidence-based practices for advancing student success for underserved students.

(3) Providing evidence-based professional development opportunities designed to build asset-based mindsets for faculty and staff on campus and that are inclusive with regard to race, ethnicity, culture, language, and disability status.

Competitive Preference Priority 2: Increasing Postsecondary Education Access, Affordability, Completion, and
