

are credible peers to the ARS. Annually, about 185 peer reviewers complete these forms. Most plans are discussed and

deliberated via webinar and telephone conferencing. Travel is not generally necessary thus reviewers are not

expected to complete Panel Expense Reports.
Frequency of Response:

Form	Number of respondents	Annual frequency
Confidentiality Agreement	185	1 per respondent (Total = 185).
Peer Review Forms (required and assigned 2 plans)	200	2 per panel respondent (Total = 400).
Reviewer Comment Form (reviewer is not assigned as primary or secondary review)	6	2 per panel respondent (Total = 12).
Expense Report (in-person reviewers)	6	1 per respondent (Total = 6).
Panelist Information Forms	185	1 per respondent/per form (Total = 185).
Recommendations Form (non-online project reviews)	82	2 per respondent (Total = 164).

Estimated Total Annual Burden on Respondents:

Form (time required to complete)	Number completed annually	Total burden (hours)
Confidentiality Agreement (10 minutes)	185	31
Panelist Information Forms (30 minutes)	185	93
Peer Review Forms (~6 hours)	200	1,200
Recommendations Form (2 hour)	82	164

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request;

April 7, 2022.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding: Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques and other forms of information technology.

Comments regarding this information collection received by May 12, 2022 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this

particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Forest Service

Title: Application and Permit for Non-Federal Commercial Use of Roads, Trails and Areas Restricted by Regulation or Order.

OMB Control Number: 0596-0016.

Summary of Collection: Authority for permits for use of National Forest System (NFS) roads, trails, and areas on NFS lands restricted by order or regulation drives from the National Forest Roads and Trails Act (16 U.S.C. 532-538). This statute authorizes the Secretary of Agriculture to promulgate regulations regarding use of NFS roads, NFS trails, and areas on NFS lands; established procedures for sharing investments in NFS roads; and require commercial users to perform road maintenance commensurate with their use of NFS roads. Forest Service regulations implementing this authority are found in 36 CFR 212.5, 212.9,

212.51, 261.10, 261.12, 261.13, 261.54, and 261.55.

Need and Use of the Information: The information is collected from individuals, corporations, or organizations who want to use a NFS Road, Trail or Area for purposes that are restricted. The agency issues Road Use Permits for a variety of reasons: To allow people to use a road, trail or area that is otherwise closed; to allow people to perform maintenance on a road when they desire a higher standard than the Forest Service does; to allow people to plow snow on a road; for non-federal commercial use of a road; or to allow over size or over weight vehicles. For non-federal commercial use permits, the land owner generally obtains the permit, but will employ a timber/trucking company to haul the material. Without the information FS would not be able to issue permits for moving oversize vehicles on FNS roads, permits to enter areas subject to areas for closures, or permits for motorized use of roads, trails, or areas not designated for such use on a motor vehicle use map.

Description of Respondents: Business or other for-profit; Individuals or households; State, Local or Tribal Government; Not-for-profit institutions; Farms.

Number of Respondents: 1,100.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 275.

National Agricultural Statistics Service (NASS)

Title: Cold Storage Survey.

OMB Control Number: 0535-0001.

Summary of Collection: The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare, and issue State and national estimates of crop and livestock production, prices, and disposition; as well as economic statistics, environmental statistics related to agriculture and also to conduct the Census of Agriculture.

The monthly Cold Storage Survey provides information on national supplies of food commodities in refrigerated storage facilities. A biennial survey of refrigerated warehouse capacity is also conducted to provide a benchmark of the capacity available for refrigerated storage of the nation's food supply. Information on stocks of food commodities that are in refrigerated facilities have a major impact on the price, marketing, processing, and distribution of agricultural products.

Need and Use of the Information: These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. USDA

agencies such as the World Agricultural Outlook Board, Economic Research Service, and Agricultural Marketing Service use this information from the Cold Storage report in setting and administering government commodity programs and in supply and demand analysis. Included in the report are stocks of pork bellies, frozen orange juice concentrate, butter, and cheese which are traded on the Chicago Board of Trade. The timing and frequency of the surveys have evolved to meet the needs of producers, facilities, agribusinesses, and government agencies.

Description of Respondents: Business or other for-profit.

Number of Respondents: 1,266.

Frequency of Responses: Reporting: Monthly; Annually.

Total Burden Hours: 5,069.

National Agricultural Statistics Service

Title: List Sampling Frame Survey.

OMB Control Number: 0535-0140.

Summary of Collection: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, economic statistics, environmental statistics related to agriculture and also to conduct the Census of Agriculture. The List Sampling Frame Surveys are used to develop and maintain a complete list of possible farm and ranch operations. The goal is to produce for each State a relatively complete, current, and unduplicated list of names for statistical sampling for agricultural operation surveys and the Census of Agriculture. Data from these agricultural surveys are used by government agencies and educational institutions in planning, farm policy analysis, and program administration. More importantly, farmers and ranchers use NASS data to help make informed business decisions on what commodities to produce and when is the optimal time to market their products. NASS data is useful to farmers in comparing their farming practices with the economic and environmental data published by NASS.

Need and Use of the Information: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.
