

GENERAL SERVICES ADMINISTRATION

[Notice—MA—2022—02; Docket No. 2022—0002, Sequence No. 2]

Government Bill of Lading (GBL) and Government Transportation Request (GTR) Forms

AGENCY: Office of Government-wide Policy (OGP), U.S. General Services Administration (GSA).

ACTION: Notice of GSA Bulletin Federal Management Regulation (FMR) D–5, Transportation Payment and Audit, Updated Guidance Regarding Government Bill of Lading (GBL) and Government Transportation Request (GTR) Forms.

SUMMARY: GSA is issuing GSA Bulletin FMR D–5 which informs agencies that Government Bill of Lading (GBL) and Government Transportation Request (GTR) forms are available online. Agencies no longer need to contact GSA for paper copies of the forms or to receive assigned serialized numbers for these forms.

DATES: Applicability date: May 2, 2022. This notice remains in effect until publication of FMR Case 2018–102–5.

FOR FURTHER INFORMATION CONTACT: For clarification of content, please contact Mr. Ron Siegel, Program Analyst, Office of Government-wide Policy, Office of Asset and Transportation Management, at 202–702–0840, or by email at GSA-OGP-transportationpolicy@gsa.gov. Please cite Notice of GSA Bulletin FMR D–5 in the subject line.

SUPPLEMENTARY INFORMATION: In the past, GSA printed multi-part GBL and GTR forms for distribution to Federal agencies. GSA has not printed these forms in many years. The FMR instructs agencies to contact GSA for copies of GBL and GTR forms in preprinted or blank formats. Agencies that need copies of these forms can now find them available online in the GSA Forms Library (<https://www.gsa.gov/reference/forms>). The FMR also instructs agencies that do not use pre-numbered GBL or GTR forms to contact GSA for assigned sets of serialized numbers. However, since agencies are already required to establish administrative procedures such as a unique numbering system tracking numbers, GSA no longer provides serialized numbers to agencies.

Upon publication of FMR Case 2018–1102–5 in the **Federal Register**, the sections that discuss GBL and GTR

forms and their numbers, along with other sections, will be updated.

Krystal J. Brumfield,
Associate Administrator, Office of
Government-wide Policy.

BILLING CODE 6820–14–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice of request for information regarding potential Consumer Assessment of Healthcare Providers and System (CAHPS®) survey for Inpatient Mental Healthcare settings.

SUMMARY: AHRQ invites public comment on its Request for Information (RFI) about a potential Consumer Assessment of Healthcare Providers and Systems (CAHPS®) survey to assess patient care experiences in inpatient mental healthcare settings. Specifically, this RFI seeks comment regarding methodologically sound survey and data collection approaches of care experiences of those receiving inpatient mental healthcare. In addition, this RFI seeks comments about any unique considerations or concerns associated with collection of such patient care experience information. There currently is no CAHPS instrument designed to measure care from the patient perspective in this setting. This request for information will help inform the development of a scientifically sound survey to measure the experience of patients receiving inpatient mental healthcare.

DATES: Comments on this notice must be received by July 1, 2022.

ADDRESSES: Interested parties may submit comments electronically to CAHPS1@westat.com with the subject line Inpatient Mental Health Experience of Care RFI. Non-electronic responses will also be accepted. Please mail to CAHPS RFI; Westat; 1600 Research Blvd.; RB 1186S; Rockville, MD 20850.

FOR FURTHER INFORMATION CONTACT: Questions may be addressed to Caren Ginsberg, Director, CAHPS and SOPS Programs, Center for Quality Improvement and Patient Safety, caren.ginsberg@ahrq.hhs.gov, or (301) 427–1894.

SUPPLEMENTARY INFORMATION: AHRQ is seeking public comment about data collection approaches and strategies to optimize the meaningfulness of patient experience information from patients receiving inpatient mental healthcare to inform the development of a CAHPS survey. AHRQ's CAHPS Program advances scientific understanding of patient healthcare experiences using surveys developed for different healthcare settings. The CAHPS surveys cover topics that are important to patients and that they are best able to assess, such as communication with providers and access to health care services. This information can address the information needs of survey sponsors, users, patients, consumers, and other stakeholders.

Specific questions of interest to AHRQ include, but are not limited to, the following:

1. What are the highest priority aspects of patient experiences with inpatient mental healthcare that should be included in measures and surveys?

a. Why are these aspect(s) of patient experience a high priority for inclusion within assessment tools?

b. What other topic area(s) should new measures and/or surveys assessing patient experiences with inpatient mental healthcare address?

2. What are the benefits of collecting information about the experience of patients in inpatient mental health settings from (a) patients and/or (b) patients' family members/caregivers?

a. What are the benefits and/or limitations of asking patients to respond to a patient experience of care survey?

b. What are the benefits and/or limitations of asking family members/caregivers to respond to surveys about patient experience on behalf of patients?

c. What are the benefits and/or limitations of asking family members/caregivers to respond to surveys about their personal experience with their family member?

3. What, if any, challenges are there to collecting information about the experience of patients in inpatient mental health settings?

4. What would facilitate the collection of information about the experience of patients in inpatient mental health settings?

5. For which respondent group(s) should measures and/or surveys be developed? For example, should measure and/or surveys be developed for adults, children, or both?

a. In which language(s) should measures and/or surveys about the experience of patients in inpatient mental health settings be administered?
