FOR FURTHER INFORMATION CONTACT: Ophelia McLain, (202) 795-7401 or Email ophelia.mclain@acl.hhs.gov.

SUPPLEMENTARY INFORMATION: This is a revision to a currently approved information collection (IC) the Protection and Advocacy One Program Performance Report (PPR). The One PRR is comprised of four required annual reports as follows: (1) Developmental Disabilities Protection and Advocacy Systems Program Performance Report, (2) Protection and Advocacy for Assistive Technology (PAAT) Program Performance Report; (3) Protection and Advocacy Voting Access Annual Report (Help America Vote Act) (HAVA); and (4) Protection and Advocacy for Traumatic Brain Injury (PATBI) Program Performance Report.

Each P&A submits using the One-PPR one report for each of the four funding sources administered by ACL. As with each funding source, there is a reporting requirement. The revision under this clearance includes information collection based on funding from the Centers for Disease Control and Prevention to increase access to COVID-19 vaccines (ACCESS) and funding under Section 2501 of the American Rescue Plan Act of 2021 (Pub. L. 117-2) to expand the Public Health Workforce (PHWF) provided under). In an effort to reduce the burden on the P&As, each will continue to submit one report for all funding sources; however, as of FY2022, the report will incorporate the activities undertaken for the ACCESS and PHWF funding by creating a new goal or priority in Part 2C and adding the narrative in Part 2.C.4 (Rationale for Adding/Changing Goal) or 2.C.5 (Rationale for Adding/Changing Priority). The guidance document provides a description of the data elements to be included in this section of the One-PPR template.

State Protection and Advocacy (P&A) Systems in each State and Territory provide individual legal advocacy, systemic advocacy, monitoring, and investigations to protect and advance the rights of people with developmental disabilities, using funding administered by the Administration on Disabilities (AoD), Administration for Community Living, HHS. To meet statutory reporting requirements, P&As use these forms for submitting annual reports.

The PPRs are reviewed by federal staff for compliance and outcomes. Information in the reports is analyzed to create a national profile of programmatic compliance, outcomes, and goals and priorities for P&A Systems for tracking accomplishments against goals and to formulate areas of technical assistance related to compliance with Federal requirements. Information collected informs AoD of trends in P&A advocacy, facilitate collaboration with other federally funded entities, and identify best practices for the efficient use of federal funds.

Additionally, the information is used to provide a national perspective on where the program is going (prospective view), and to provide a gage for program accomplishments against program objectives for purposes of identifying continuing challenges and formulating technical assistance and management support provided to P&A systems.

Comments in Response to the 60-Day Federal Register Notice

The 60-day notice **Federal Register**, Vol. 87, No. 26 7182 FRN was published on February 8, 2022. ACL received 32 comments from 7 entities in response to the 60-day notice. Comments included concerns relating to demographic information, burden of effort, estimate of the developmental disabilities’ population, and clarification needed in the guidance document. ACL’s responses to these comments are included below.

Organization	Section	Comment	Response
Disability Rights Maine	1C	Noted demographic information collected could be improved to better reflect diversity and cultural competency. The current choices are male and female. Recommended including a broad range of gender identity options. In addition, there is limited information on racial and ethnic diversity of individuals served. Recommended including whether a person is part of an immigrant community.	ACL intends to update this element to reflect appropriate options.
Disability Rights Maine	Part 3	Recommended including additional demographic information about the board, staff, and advisory council, similar to recommendations for 1C.	Upon review of the current PPRs, no changes will be made at this time.
Disability Rights Maine	None	Burden of hours of 140 to compile the One-PPR is correct; however, this estimate does not include the amount of time spent by staff to collect and input required information in its case management system.	As a result of the required information, no changes will be made at this time.
