SUPPLEMENTARY INFORMATION:

I. Background

We are announcing the availability of a guidance for industry entitled

"Reducing Microbial Food Safety Hazards in the Production of Seed for Sprouting." This guidance is intended to inform the sprout seed industry (seed growers, conditioners, packers, holders, suppliers, and distributors) of our serious concern with the continuing outbreaks of foodborne illness associated with the consumption of raw and lightly cooked sprouts and provide our recommendations to firms throughout the production chain of seed for sprouting. We are issuing the guidance consistent with our good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on this topic. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

In the **Federal Register** of June 25, 2019 (84 FR 29867), we announced a draft guidance for industry and gave interested parties an opportunity to submit comments by August 26, 2019, for us to consider before beginning work on the final version of the guidance. We received 10 comments on the draft guidance and have modified the final guidance where appropriate. Changes to the guidance include the addition of examples, information about the scope of recommendations pertaining to cleaning and sanitizing of wet and dry food contact surfaces, information about testing seed for sprouting, research related to the source of contamination in sprout-related outbreaks, and updated recommendations related to proximity of seed growing operations to a domestic animal raising farm. The guidance announced in this notice finalizes the draft guidance dated June 2019.

II. Paperwork Reduction Act of 1995

This guidance contains no collection of information. Therefore, clearance by the Office of Management and Budget under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3521) is not required.

III. Electronic Access

Persons with access to the internet may obtain the guidance at either <https://www.fda.gov/regulatory-information/search-fda-guidance-documents> or <https://www.regulations.gov>. Use the FDA website listed in the previous sentence to find the most current version of the guidance.
