

Affected Public: Participants of Creative Forces Community Engagement Programs/Events.

Estimated Number of Respondents: 360 (350 program participants, 10 project directors).

Total Burden Hours: 199.3 annually.

Total annualized capital/startup costs: 0.

Total annual costs (operating/maintaining systems or purchasing services): The total one-time contracted cost to the Federal Government for survey development, cognitive testing, and pilot testing is \$75,000.

Description: This is a request for clearance for the NEA to conduct a pilot test of the Participant Outcomes Survey to assess individual-level outcomes associated with the Creative Forces®: NEA Military Healing Arts Network Community Engagement Grant Program (<http://www.maaa.org/creativeforces/>). This is a new data collection request, and the data to be collected are not available elsewhere unless collected through this information collection. The pilot study will enable the NEA to test and refine the survey's methodology for assessing outcomes and the administration process.

The Creative Forces®: NEA Military Healing Arts Network seeks to improve the health, well-being, and quality of life for military and veteran populations exposed to trauma, and for their families and caregivers through clinical and non-clinical programs (<https://www.arts.gov/initiatives/creative-forces>). Creative Forces is funded through Congressional appropriation. The Congressional Committee on Appropriation "supports the NEA's continued efforts to expand upon this successful program to embed Creative Arts Therapies at the core of integrative care efforts in clinical settings, advance collaboration among clinical and community arts providers to support wellness and reintegration efforts for affected families, and advance research to improve our understanding of impacts of these interventions in both clinical and community settings."

According to the National Endowment for the Arts 2018–2022 Strategic Plan (page 20), evidence building for Strategic Objective 2.4, Support Access to Creative Arts Therapies and Evidence-Based Programs in the Arts and Health, involves "the development of a community engagement research agenda and framework for defining indicators and developing metrics for measuring the impact and benefits from participation in therapeutic arts interventions and community-based arts engagement programs aligned with, or

complementary to, Creative Forces clinical program outcomes."

Beginning in 2022, Creative Forces will award Community Engagement Grants to support non-clinical arts engagement programming for military-connected populations through matching grants of \$10,000 to \$50,000 for emerging ("Emerging") and established ("Advanced") community-based arts engagement projects to serve military-connected populations. The NEA anticipates awarding approximately 30 awards annually, with the first round of grant-funded projects taking place after July 1, 2022. The grant program will support a range of program models (e.g., ongoing class, drop-in studio, single event) designed to meet local needs. The grant program will be the largest coordinated effort in the U.S. to provide community arts engagement programming for military and veteran populations exposed to trauma, and for their families and caregivers. The Creative Forces Community Engagement Grant Program is conducted in partnership with Mid-America Arts Alliance (M–AAA).

During development of the Community Engagement Grant program, the NEA (1) documented the needs of military and veteran populations exposed to trauma, and of their families and caregivers, (2) identified goals for community arts engagement programming and four outcomes for participants, (3) produced logic models and measurement frameworks for the grantee and national program levels, (4) contributed to grant guidelines, and (5) evaluated methodologies and instruments for data collection. The Participant Outcomes Survey assesses four participant outcome areas identified during development of the grant program: Creative Expression, Social Connectedness, Resilience, and Independence and Successful Adaptation to Civilian Life. Participants of the programs supported by a Creative Forces Community Engagement grant will complete the survey at the beginning (pre) and end (post) of participation in the program. Program participants will be asked to complete an enrollment form. Project directors will be asked to participate in an interview following the end of the survey administration period.

The purpose of the Participant Outcomes Survey is to determine the impact of the Community Engagement Grant Program by measuring the extent of change over time (pre-to-post) in the four participant outcomes and to inform ongoing program improvement. Through this pilot test of the survey, the NEA will evaluate the effectiveness of

the survey instrument and the administration process during the first cycle of the grant program. The data collection activities are planned for January through June 2023. A regular PRA clearance package will be submitted in FY 2023 for a Creative Forces Community Engagement Grant Program evaluation study that utilizes this survey instrument.

Dated: July 1, 2022.

Meghan Jugder,

Support Services Specialist, Office of Administrative Services & Contracts, National Endowment for the Arts.

BILLING CODE 7537–01–P

NATIONAL SCIENCE FOUNDATION

Proposal Review Panel for Materials Research; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation (NSF) announces the following meeting:

Name and Committee Code: Site visit review of Platform for the Two-Dimensional Crystal Consortium, a Materials Innovation Platform (2DCC–MIP), at Pennsylvania State University by the NSF Division of Materials Research (DMR) (#1203).

Date and Time: August 4, 2022; 8:30 a.m.–6:00 p.m.; August 5, 2022; 8:30 a.m.–2:30 p.m.

Place: Millennium Science Complex, Pennsylvania State University, Pollock Road, University Park, PA 16802.

Type of Meeting: Part-open.

Contact Person: Charles Ying, Program Director, Division of Materials Research, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; Telephone (703) 292–8428.

Purpose of Meeting: Site visit to provide advice and recommendations concerning further support of the 2DCC–MIP at Pennsylvania State University.

Agenda

Thursday, August 4, 2022

8:30 a.m.–9:00 a.m. Executive Session (Closed)

9:00 a.m.–11:45 a.m. Review of PARADIM MIP

11:45 a.m.–6:00 p.m. Executive Session (Closed)

Friday, August 5, 2022

8:30 a.m.–2:30 p.m. Executive Session (Closed)

Reason for Closing: Topics to be discussed and evaluated during closed

portions of the site review will include information of a proprietary or confidential nature, including technical information; and information on personnel. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

Dated: July 1, 2022.

Crystal Robinson,

Committee Management Officer.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-456 and 50-457; NRC-2022-0134]

Constellation Energy Generation, LLC; Braidwood Station, Unit Nos. 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; opportunity to comment, request a hearing, and petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to Facility Operating License No. NPF-72 and NPF-77, issued to Constellation Energy Generation, LLC, for operation of the Braidwood Station, Unit Nos. 1 and 2. The proposed amendments would change Technical Specifications (TS) Surveillance Requirement (SR) 3.7.9.2 to allow an ultimate heat sink (UHS) temperature of ≤ 102.8 °F (degree Fahrenheit) through September 30, 2022.

DATES: Submit comments by August 8, 2022. Requests for a hearing or petition for leave to intervene must be filed by September 6, 2022.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website:

- *Federal rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2022-0134. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Office of Administration, Mail Stop: TWFN-7-A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Program Management, Announcements and Editing Staff.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Joel S. Wiebe, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: 301-415-6606, email: Joel.Wiebe@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2022-0134 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2022-0134.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to PDR.Resource@nrc.gov. The LAR is available under ADAMS ML22154A203.

- **NRC'S PDR:** You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. Eastern Time (ET), Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2022-0134 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS.

The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Introduction

The NRC is considering issuance of an amendment to Facility Operating Licenses No. NPF-72 and NPF-77, issued to Constellation Energy Generation, LLC, for operation of the Braidwood Station, Unit Nos. 1 and 2, located in Will County, Illinois.

The proposed amendments would change TS SR 3.7.9.2 to allow a UHS temperature of less than or equal to 102.8 °F through September 30, 2022.

Before any issuance of the proposed license amendment, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended (the Act), and NRC's regulations.

The NRC has made a proposed determination that the LAR involves no significant hazards consideration (NSHC). Under the NRC's regulations in § 50.92 of title 10 of the *Code of Federal Regulations* (10 CFR), this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its NSHC analysis, which is presented below:

1. Does the proposed change involve a significant increase in the probability or consequences of an accident previously evaluated?

Response: No.

The likelihood of a malfunction of any systems, structures, or components (SSCs) supported by the Ultimate Heat Sink (UHS) is not significantly increased by increasing the allowable UHS temperature from ≤ 102 °F to ≤ 102.8 °F. The UHS provides a heat sink for process and operating heat from safety related components during a transient or accident, as well as during normal operation. The proposed change
