#### SUPPLEMENTARY INFORMATION:

##### I. General Information

###### A. Does this action apply to me?

You may be potentially affected by  
this action if you are an agricultural

producer, food manufacturer, or  
pesticide manufacturer. The following  
list of North American Industrial  
Classification System (NAICS) codes is  
not intended to be exhaustive, but rather  
provides a guide to help readers  
determine whether this document  
applies to them. Potentially affected  
entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code  
112).
- Food manufacturing (NAICS code  
311).
- Pesticide manufacturing (NAICS  
code 32532).

###### B. What should I consider as I prepare my comments for EPA?

1. *Submitting Confidential Business  
Information (CBI).* Do not submit this  
information to EPA through  
[regulations.gov](https://www.regulations.gov) or email. Clearly mark  
the part or all of the information that  
you claim to be CBI. For CBI  
information in a disk or CD-ROM that  
you mail to EPA, mark the outside of the  
disk or CD-ROM as CBI and then  
identify electronically within the disk or  
CD-ROM the specific information that  
is claimed as CBI. In addition to one  
complete version of the comment that  
includes information claimed as CBI, a  
copy of the comment that does not  
contain the information claimed as CBI  
must be submitted for inclusion in the  
public docket. Information so marked  
will not be disclosed except in  
accordance with procedures set forth in  
40 CFR part 2.

2. *Tips for preparing your comments.*  
When preparing and submitting your  
comments, see the commenting tips at  
[https://www.epa.gov/dockets/  
comments.html](https://www.epa.gov/dockets/comments.html).

3. *Environmental justice.* EPA seeks to  
achieve environmental justice, the fair  
treatment and meaningful involvement  
of any group, including minority and/or  
low-income populations, in the  
development, implementation, and  
enforcement of environmental laws,  
regulations, and policies. To help  
address potential environmental justice  
issues, the Agency seeks information on  
any groups or segments of the  
population who, as a result of their  
location, cultural practices, or other  
factors, may have atypical or  
disproportionately high and adverse  
human health impacts or environmental  
effects from exposure to the pesticides  
discussed in this document, compared  
to the general population.

##### II. What action is the Agency taking?

EPA is announcing receipt of  
pesticide petitions filed under section  
408 of the Federal Food, Drug, and

Cosmetic Act (FFDCA), 21 U.S.C. 346a,  
requesting the establishment or  
modification of regulations in 40 CFR  
part 174 or part 180 for residues of  
pesticide chemicals in or on various  
food commodities. The Agency is taking  
public comment on the requests before  
responding to the petitioners. EPA is not  
proposing any particular action at this  
time. EPA has determined that the  
pesticide petitions described in this  
document contain data or information  
prescribed in FFDCA section 408(d)(2),  
21 U.S.C. 346a(d)(2); however, EPA has  
not fully evaluated the sufficiency of the  
submitted data at this time or whether  
the data supports granting of the  
pesticide petitions. After considering  
the public comments, EPA intends to  
evaluate whether and what action may  
be warranted. Additional data may be  
needed before EPA can make a final  
determination on these pesticide  
petitions.

Pursuant to 40 CFR 180.7(f),  
summaries of the petitions that are the  
subject of this document, prepared by  
the petitioners, are included in dockets  
EPA has created for these rulemakings.  
The dockets for these petitions are  
available at [https://  
www.regulations.gov](https://www.regulations.gov).

As specified in FFDCA section  
408(d)(3), 21 U.S.C. 346a(d)(3), EPA is  
publishing notice of the petitions so that  
the public has an opportunity to  
comment on these requests for the  
establishment or modification of  
regulations for residues of pesticides in  
or on food commodities. Further  
information on the petitions may be  
obtained through the petition  
summaries referenced in this unit.
