

**POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:**

Staff producing final statistical products will have access only to data sets from which direct identifiers were deleted and replaced by a unique non-identifying code (a Protected Identification Key (PIK)) internal to the Census Bureau and to data sets covered by COMMERCE/CENSUS-8, Statistical Administrative Records System, where direct identifiers have been deleted and replaced by a PIK. For additional information on the PIK, see the COMMERCE/CENSUS-8, Statistical Administrative Records System. A limited number of sworn Census Bureau staff are permitted to retrieve records containing direct identifiers (such as a name or SSN). Records in this system of records may also be linked to COMMERCE/CENSUS-3, Demographic Survey Collection (Census Bureau Sampling Frame) (name change from COMMERCE/CENSUS-3, Special Censuses, Surveys, and Other Studies pending publication in the **Federal Register**); COMMERCE/CENSUS-4, Economic Survey Collection; COMMERCE/CENSUS-5, Decennial Census Programs; COMMERCE/CENSUS-8, Statistical Administrative Records System; COMMERCE/CENSUS-9, Longitudinal Employer-Household Dynamics System; and COMMERCE/CENSUS-12, Foreign Trade Statistics where records may be retrieved by a PIK or an identifier common to all eight systems of records to conduct approved special research projects with limited access by individuals with Special Sworn Status and Census Bureau staff.

**POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:**

Records are retained in accordance with the General Records Schedule and Census Bureau's records control schedules that are approved by the National Archives and Records Administration (NARA) as applicable or are retained in accordance with agreements developed with sponsoring agencies. The Census Bureau issues an Annual Safeguard Activity Report that includes information on the retention and disposal of federal administrative record source data. Permanent data will be archived at the Census Bureau.

**ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:**

The Census Bureau is committed to respecting respondent privacy and protecting confidentiality. Through the Data Stewardship Program, we have implemented management, operational, and technical controls, and practices to

ensure high-level data protection to respondents of other agency surveys conducted by the Census Bureau.

(1) A policy against unauthorized browsing protects respondent information from casual or inappropriate use by any individual with access to Census Bureau data. Unauthorized browsing is defined as the act of searching or looking through, for other than work-related purposes, protected personal or business-related information that directly or indirectly identifies individuals or businesses. Unauthorized browsing is prohibited.

(2) All Census Bureau employees and individuals with Special Sworn Status permitted to access the system are subject to the restrictions, penalties, and prohibitions of the sponsoring agency's protection statutes (including, but not limited to the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2002 (Pub. L. 107-347)), and provisions of the Privacy Act, as applicable. Data maintained in this system of records is subject to the restrictions, penalties, and prohibitions of the sponsoring agency's statutes. If it is determined individuals with Special Sworn Status require access, they will undergo the appropriate background checks and be required to sign the Census Bureau's affidavit of non-disclosure.

(3) All Census Bureau employees and individuals with Special Sworn Status will be advised of regulations governing the confidentiality of the data and will be required to complete Data Stewardship Awareness Training annually.

(4) All Census Bureau computer systems that maintain sensitive information are in compliance with the Federal Information Security Management Act (FISMA), as amended (44 U.S.C. 3551-3559), which includes auditing and implementing controls over restricted data.

(5) The use of unsecured telecommunications to transmit individually identifiable information is prohibited.

(6) Paper copies that contain sensitive information are stored in secure facilities in a locked drawer or file cabinet behind a locked door.

(7) Additional data files containing direct identifiers will be maintained for the purpose of data collection activities (such as respondent contact and pre-loading an instrument for a continued interview) or for approved special research projects and will not be transferred to, or maintained on, working statistical files.

Pursuant to 5 U.S.C. 552a(k)(4), this system of records is exempted from subsections (c)(3); (d); (e)(1); (e)(4)(G), (H), and (I); and (f) of the Privacy Act.
