

IND-exempt BA/BE studies under 21 CFR 320.31.² A serious adverse event experienced by a study subject during the conduct of an IND-exempt BA/BE study must be submitted on Form FDA 3500A or in an electronic format that FDA can process, review, and archive.³

Previously, to meet the requirements under § 320.31(d)(3) applicable to IND-exempt BA/BE studies, submitters sent expedited premarket safety reports directly to the Office of Generic Drugs (OGD) by email, telephone, or facsimile. This guidance provides recommendations on how to electronically submit ICSRs to the FAERS database as an alternate avenue for submitting reports to OGD once these enhancements are activated.

This draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on "Electronic Submission of Expedited Safety Reports From IND-Exempt BA/BE Studies." It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

While this guidance contains no collection of information, it does refer to previously approved FDA collections of information. Therefore, clearance by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3521) is not required for this guidance. The previously approved collections of information are subject to review by OMB under the PRA. The collections of information in 21 CFR part 312 for IND applications and 21 CFR 320.31 for IND-exempt BA/BE safety reporting requirements for human drug and biological products have been approved under OMB control number 0910–0014. The collections of information in 21 CFR 314 for safety report submissions for applications for FDA approval new drug application have been approved under OMB control number 0910–0001.
