

this system. The system has only one category for individuals.

*Total Estimated Number of Annual Respondents:* Approximately 335,000 respondents on an annual basis.

*Total Estimated Number of Annual Responses:* Approximately 335,000 respondents on an annual basis.

*Estimated Completion Time per Response:* We estimate that it will take 2 minutes per response to submit the requested information.

*Total Estimated Number of Annual Burden Hours:* 11,167.

*Respondent's Obligation:* Required to obtain or retain a benefit.

*Frequency of Collection:* One time.

*Total Estimated Annual Non-hour Burden Cost:* There are no "non-hour cost" burdens associated with this collection of information.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501, *et seq.*).

**John M. Hahn,**

*Acting USGS EROS Center Director.*

## DEPARTMENT OF JUSTICE

### Notice of Lodging of Proposed Consent Decree Under the National Marine Sanctuaries Act

On August 23, 2022, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Southern District of Florida in the lawsuit entitled *United States v. Utility Board of the City of Key West, Florida*, Civil Action No. 4:22-cv-10070-JLK.

The Consent Decree resolves claims against the Utility Board of the City of Key West, Florida (d/b/a Keys Energy Services), Michels Corporation, and Michels Power, Inc. for recovery of damages under the National Marine Sanctuaries Act, 16 U.S.C. 1443(a)(1), arising from utility work relating to Keys Energy Services Line 4 conducted near Rockland Key, Florida, between October 14 and December 20, 2017 that destroyed sea grasses in the Florida Keys National Marine Sanctuary. The proposed Consent Decree resolves the claim for \$1,800,000.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural

Resources Division, and should refer to *United States v. Utility Board of the City of Key West, Florida*, D.J. Ref. No. 90-5-1-1-12301. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

To submit comments:	Send them to:
By email .....	<a href="mailto:pubcomment-ees.enrd@usdoj.gov">pubcomment-ees.enrd@usdoj.gov</a> .
By mail .....	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

During the public comment period, the Consent Decree may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. We will provide a paper copy of the Consent Decree upon written request and payment of reproduction costs. Please mail your request and payment to:

Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

Please enclose a check or money order for \$4.50 (25 cents per page reproduction cost) payable to the United States Treasury.

**Lori Jonas,**

*Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.*

## DEPARTMENT OF LABOR

### Agency Information Collection Activities; Submission for OMB Review; Comment Request; Gamma Radiation Surveys

**ACTION:** Notice of availability; request for comments.

**SUMMARY:** The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

**DATES:** The OMB will consider all written comments that the agency receives on or before September 28, 2022.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

*Comments are invited on:* (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

**FOR FURTHER INFORMATION CONTACT:** Nora Hernandez by telephone at 202-693-8633, or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

**SUPPLEMENTARY INFORMATION:** MSHA uses this information to evaluate the effectiveness of a mine operator's protection program in demonstrating compliance with the radiation standards. Gamma radiation occurs where radioactive materials are present. Natural sources include uranium and other radioactive elements found in rocks, soils, and ground water. Gamma radiation hazards may also be found near radiation sources in surface and underground mines operations using X-ray machines, weightometers, nuclear gauges and diffraction units. Such gauges contain radioactive materials and are mounted outside tanks, pipes, bins, hoppers or other types of vessels; gamma rays measure the level and density of liquids, slurries or solids.

Regulations 30 CFR 57.5047 requires records be kept of cumulative individual gamma radiation exposure to ensure that annual exposure does not exceed 5 Rems. It is intended to protect the health of workers in mines with radioactive ores. Currently, there are three radioactive ore mines in the United States: one active facility and two non-producing underground uranium mines. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 4, 2022 (87 FR 26374).
