II. Background

By letter dated November 29, 2021 (ADAMS Accession No. ML21319A354) the NRC staff informed Kairos of its determination that the Kairos application for a construction permit for the Hermes test reactor was acceptable for docketing under Docket No. 50-7513. A notice of acceptance for docketing of the application was published in the **Federal Register** on December 1, 2021 (86 FR 68290) and a notice of opportunity for hearing was published on February 9, 2022 (87 FR 7503). A notice of intent to prepare an environmental impact statement and to conduct scoping process was published in the **Federal Register** on February 18, 2022 (87 FR 9394).

III. Discussion

As set forth in Section 51.20(b)(1) of title 10 of the *Code of Federal Regulations* (10 CFR), issuance of a construction permit (CP) under 10 CFR part 50 for a testing facility is an action that requires an EIS. This notice is being published in accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, and the NRC's regulations in 10 CFR part 51. In addition, as outlined in 36 CFR 800.8(c), "Coordination with the National Environmental Policy Act," the NRC staff has been coordinating compliance with Section 106 of the National Historic Preservation Act (NHPA) with steps taken to meet the requirements of NEPA. Pursuant to 36 CFR 800.8(c), the NRC staff used the process and documentation for the preparation of the draft EIS on the proposed action to comply with Section 106 of the NHPA in lieu of the procedures set forth in 36 CFR 800.3 through 800.6.

The draft EIS includes the NRC staff's preliminary analysis of the environmental impacts of the proposed action of deciding whether to issue a construction permit to Kairos. After weighing the environmental, economic, technical, and other benefits against environmental and other costs, the NRC staff's preliminary recommendation, unless safety issues mandate otherwise, is that the operating license be issued as requested.

IV. Request for Comment and Public Meeting

The NRC staff is requesting public comment on the draft EIS for the Construction Permit for the Kairos Hermes Test Reactor. On November 16, 2022, the NRC is planning to hold a public meeting and an online webinar, to present an overview of its preliminary analysis and to receive comments from 7:00 p.m. until 9:00 p.m. ET, at the Hilton DoubleTree at 215 S Illinois Avenue in Oak Ridge, Tennessee. A court reporter will transcribe all comments received during the public meeting and the transcript will be made publicly available. To be considered, comments must be provided either at the transcribed public meeting or in writing, as discussed in the **ADDRESSES** section of this document.

Additionally, the NRC staff will host an informal discussion at the Hilton DoubleTree for 1 hour prior to the start of the meeting for those attending the meeting in person. No formal comments will be accepted during the informal discussions.

Persons interested in attending this public meeting should monitor the NRC's Public Meeting Schedule website at <https://www.nrc.gov/pmns/mtg> for additional information, agendas for the meeting, and access information. Meeting details will also be available by November 1, 2022 at <https://www.nrc.gov/reactors/non-power/hermes-kairos.html>. Those wishing to speak and voice comments at the public meeting should follow the instructions listed on the NRC's Public Meeting Schedule website. The NRC encourages those wishing to voice comments during the meeting to register in advance by sending an email to KairosHermes-CPEIS@nrc.gov and indicate if attending in-person or remotely. Please contact Tamsen Dozier no later than November 1, 2022, if accommodations or special equipment is needed to attend or to provide comments, so that the NRC staff can determine whether the request can be accommodated.

Dated: September 26, 2022.

For the Nuclear Regulatory Commission.

Chief, Environmental Review New Reactors Branch, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety and Safeguards.
