Therefore, you should always check FDA’s website at <https://www.fda.gov/AdvisoryCommittees/default.htm> and scroll down to the appropriate advisory

committee meeting link, or call the advisory committee information line to learn about possible modifications before the meeting.

SUPPLEMENTARY INFORMATION:

Agenda: The meeting presentations will be heard, viewed, captioned, and recorded through an online teleconferencing platform. The committee will discuss new drug application (NDA) 212833, obeticholic acid (OCA) 25 mg oral tablets, submitted by Intercept Pharmaceuticals, Inc., for the treatment of pre-cirrhotic liver fibrosis due to nonalcoholic steatohepatitis.

FDA intends to make background material available to the public no later than 2 business days before the meeting. Background material and the link to the online teleconference meeting room will be available at <https://www.fda.gov/AdvisoryCommittees/Calendar/default.htm>. Scroll down to the appropriate advisory committee meeting link. The meeting will include slide presentations with audio components to allow the presentation of materials in a manner that most closely resembles an in-person advisory committee meeting.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. All electronic and written submissions submitted to the Docket (see **ADDRESSES**) on or before May 5, 2023, will be provided to the committee. Oral presentations from the public will be scheduled between approximately 1:30 p.m. to 2:30 p.m. Eastern Time. Those individuals interested in making formal oral presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation on or before April 27, 2023. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by April 28, 2023.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501-3521), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the

public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on these topics: (1) whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

Custom Devices

OMB Control Number 0910-0767—Extension

This information collection supports implementation of requirements in section 520(b) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 360j(b)), which governs custom devices. Custom devices are exempt from premarket approval requirements provided certain criteria is met. Agency regulations in 21 CFR 812.3 define a custom device and regulations in 21 CFR 807.85 provide for custom device exemptions. Section 520(b) also provides for the issuance of Agency guidance. The guidance document entitled, "Custom Device Exemption" (September 2014), and available for download at <https://www.fda.gov/media/89897/download>, provides definitions of terms used in the custom device exemption, explains how FDA interprets the "5 units per year of a particular device type" language contained in section 520(b)(2)(B) of the FD&C Act; describes what information should be submitted in a Custom Device Annual Report ("annual report"); and provides recommendations on how to submit an annual report for devices distributed under the custom device exemption. Specifically, the guidance

document instructs that Custom Device Annual Reports should be written in English and explains that respondents should direct two copies, including at least one hard copy, to:

Attn: Custom Device Annual Report Submission Coordinator, Division of Analysis and Program Operations, Office of Compliance, Center for Devices and Radiological Health, U.S. Food and Drug Administration, Bldg. 66, Rm.

2622, 10903 New Hampshire Ave., Silver Spring, MD 20993-0002.

Although the submission of Custom Device Annual Reports are not required electronically, we strongly encourage submitting one of the two required copies as an eCopy (i.e., a PDF file on a CD, DVD, or flash drive). Technical instructions are also provided in the guidance document entitled “eCopy Program for Medical Device

Submissions: Guidance for Industry and Food and Drug Administration Staff” (April 2020); available for download at <http://www.fda.gov/downloads/MedicalDevices/DeviceRegulationandGuidance/GuidanceDocuments/UCM313794.pdf> for more information about submitting an eCopy.

We estimate the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN¹

Activity	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
Annual reporting for custom devices under 520(b) of the FD&C Act	34	1	34	40	1,360

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

Based on a review of the information collection since our last request for OMB approval, we have made no adjustments to our burden estimate.

Dated: March 7, 2023.

Associate Commissioner for Policy.

SUPPLEMENTARY INFORMATION:

I. Background

Section 564 of the FD&C Act (21 U.S.C. 360bbb-3) as amended by the Project BioShield Act of 2004 (Pub. L. 108-276) and the Pandemic and All-Hazards Preparedness Reauthorization Act of 2013 (Pub. L. 113-5) allows FDA to strengthen the public health protections against biological, chemical, nuclear, and radiological agents. Among other things, section 564 of the FD&C Act allows FDA to authorize the use of an unapproved medical product or an unapproved use of an approved medical product in certain situations. On March 31, 2021, FDA issued an EUA to Abbott for the BinaxNOW COVID-19 Ag 2 Card, subject to the terms of the Authorization. Notice of the issuance of this Authorization was published in the

Federal Register on July 23, 2021 (86 FR 39040), as required by section 564(h)(1) of the FD&C Act. On August 25, 2020, FDA issued an EUA to Standard (then known as Fluidigm Corp.) for the Advanta Dx SARS-CoV-2 RT-PCR Assay, subject to the terms of the Authorization. Notice of the issuance of this Authorization was published in the **Federal Register** on November 20, 2020 (85 FR 74346), as required by section 564(h)(1) of the FD&C Act. On February 7, 2022, FDA issued an EUA to Standard (then known as Fluidigm Corp.) for the Advanta Dx COVID-19 EASE Assay, subject to the terms of the Authorization. Notice of the issuance of this Authorization was published in the **Federal Register** on July 22, 2022 (87 FR 43877), as required by section 564(h)(1) of the FD&C Act. Subsequent revisions to the Authorizations were made available on FDA’s website. The authorization of a device for emergency use under section 564 of the FD&C Act may, pursuant to section 564(g)(2) of the FD&C Act, be revoked when the criteria under section 564(c) of the FD&C Act for issuance of such authorization are no longer met (section 564(g)(2)(B) of the FD&C Act), or other circumstances make such revocation appropriate to protect the public health or safety (section 564(g)(2)(C) of the FD&C Act).

II. EUA Revocation Requests

On January 20, 2023, FDA received a request from Abbott for the revocation of, and on January 31, 2023, FDA revoked, the Authorization for the BinaxNOW COVID-19 Ag 2 Card. Because Abbott requested FDA revoke the EUA for the BinaxNOW COVID-19 Ag 2 Card, FDA has determined that it is appropriate to protect the public health or safety to revoke this
