

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 2

[ET Docket No. 21–232, EA Docket No. 21–233; FR ID 136323]

Protecting Against National Security Threats to the Communications Supply Chain Through the Equipment Authorization Program; Correction

AGENCY: Federal Communications Commission.

ACTION: Correcting amendments.

SUMMARY: On February 6, 2023, the Federal Communications Commission revised Commission rules. That document inadvertently failed to update the requirements for changes in name, address, ownership, or control of grantee in the case of a transaction affecting the grantee. This document corrects the final regulations.

DATES: Effective April 21, 2023.

FOR FURTHER INFORMATION CONTACT: Jamie Coleman, Office of Engineering and Technology, (202) 418–2705 or Jamie.Coleman@FCC.gov. For additional information concerning the Paperwork Reduction Act information collection requirements contained in this document, contact Nicole Ongele, (202) 418–2991 or send an email to PRA@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission’s document, in ET Docket No. 21–232 and EA Docket No. 21–233, released on March 20, 2023. This document corrects an unintentionally omitted rule subparagraph in the final rules appendix of FCC 22–84, which was published in the **Federal Register** on February 6, 2023 (88 FR 7592).

List of Subjects in 47 CFR Part 2

Communications equipment, Radio, Telecommunications.

Accordingly, 47 CFR part 2 is corrected by making the following correcting amendments:

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

■ 1. The authority citation for part 2 continues to read as follows:

Authority: 47 U.S.C. 154, 302a, 303, and 336 unless otherwise noted.

■ 2. Amend § 2.929 by revising paragraph (d) to read as follows:

§ 2.929 Changes in name, address, ownership or control of grantee.

* * * * *

(d) In the case of transactions affecting the grantee, such as a transfer of control or sale to another company, mergers, or transfer of manufacturing rights, notice must be given to the Commission via the internet at <https://apps.fcc.gov/eas> within 60 days after the consummation of the transaction.

(1) The notice described in the introductory text to this paragraph (d) must include:

(i) A written and signed certification that, as of the date of the filing of the notice, the equipment to which the change applies is not prohibited from receiving an equipment authorization pursuant to § 2.903;

(ii) An affirmative or negative statement as to whether the applicant is identified on the Covered List, established pursuant to § 1.50002 of this chapter, as an entity producing covered communications equipment; and

(iii) The written and signed certifications required under § 2.911(d)(7).

(2) Depending on the circumstances in each case, the Commission may require new applications for certification. In reaching a decision, the Commission will consider whether the acquiring party can adequately ensure and accept responsibility for continued compliance with the regulations. In general, new applications for each device will not be required. A single application for certification may be filed covering all the affected equipment.

Federal Communications Commission.

Ronald Repasi,

Acting Chief, Office of Engineering and Technology.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 23–310; MB Docket No. 22–337; RM–11930; FR ID 136535]

Radio Broadcasting Services; Dennison, Ohio

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document amends the FM Table of Allotments, of the Federal Communications Commission’s (Commission) rules, by allotting Channel 272A at Dennison, Ohio, as the community’s first local service. A staff engineering analysis indicates that Channel 272A can be allotted to Dennison, Ohio, consistent with the

minimum distance separation requirements of the Commission’s rules, with a site restriction of 2.7 km (1.7 miles) west of the community. The reference coordinates are 40–23–54 NL and 81–21–33 WL.

DATES: Effective May 26, 2023.

FOR FURTHER INFORMATION CONTACT: Rolanda F. Smith, Media Bureau, (202) 418–2700.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission’s Report and Order, adopted April 11, 2023, and released April 11, 2023. The full text of this Commission decision is available online at <https://apps.fcc.gov/ecfs/>. This document does not contain information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104–13.

The Commission will send a copy of the Report and Order in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A).

List of Subjects in 47 CFR Part 73

Radio, Radio broadcasting.
Federal Communications Commission.
Nazifa Sawez,
Assistant Chief, Audio Division, Media Bureau.

Final Rules

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 73 as follows:

PART 73—RADIO BROADCAST SERVICES

■ 1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 155, 301, 303, 307, 309, 310, 334, 336, 339.

■ 2. In § 73.202(b), amend the Table of FM Allotments under Ohio by adding an entry for “Dennison” to read as follows:

§ 73.202 Table of Allotments.

* * * * *
(b) * * *

TABLE 1 TO PARAGRAPH (b)
[U.S. States]

	Channel No.
* * * * *	*
Ohio	
Dennison	272A
* * * * *	*

BILLING CODE 6712-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 220711-0151; RTID 0648-XC947]

Fisheries of the Northeastern United States; Northeast Multispecies Fishery; White Hake Trimester Total Allowable Catch Area Closure for the Common Pool Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; area closure.

SUMMARY: This action closes the White Hake Trimester Total Allowable Catch Area to Northeast multispecies common pool vessels fishing with trawl gear, sink gillnet gear, and longline/hook gear, except for Handgear A and B permitted vessels using handgear or tub trawl, through April 30, 2023. The closure is required because the common pool fishery is projected to have caught over 90 percent of its Trimester 3 quota for white hake. This closure is intended to prevent an overage of the common pool's quota for this stock.

DATES: This action is effective April 18, 2023, through April 30, 2023.

FOR FURTHER INFORMATION CONTACT: Spencer Talmage, Fishery Policy Analyst, 978-281-9232.

SUPPLEMENTARY INFORMATION: Federal regulations at § 648.82(n)(2)(ii) require closure of the common pool Trimester Total Allowable Catch (TAC) Area for a stock when 90 percent of the Trimester TAC is projected to be caught. The closure applies to all common pool vessels fishing with gear capable of catching that stock, and remains in effect for the remainder of the trimester. During the closure, affected common pool vessels may not fish for, harvest, possess, or land regulated multispecies

or ocean pout in or from the Trimester TAC Area for the stock.

The Trimester 3 TAC for white hake is 17,857 lb (8.2 mt). Catch data (including landings and discards) indicate that the common pool fishery caught 9,700.3 lb (4.4 mt) of white hake, or 54.3 percent of the Trimester 3 TAC, through March 21, 2023. Based on remaining quota, recent catch rates, and historical participation in the fishery, NMFS projects that by April 15, 2023, the common pool achieved 90 percent of the Trimester 3 TAC for white hake.

Effective April 18, 2023, the White Hake Trimester TAC Area is closed for the remainder of Trimester 3, through April 30, 2023. The White Hake Trimester TAC Area consists of statistical areas, 513, 514, 515, 521, and 522. During the closure, common pool vessels fishing with trawl gear, sink gillnet gear, and longline/hook gear, except for Handgear A and B permitted vessels using handgear or tub trawl, may not fish for, harvest, possess, or land regulated multispecies or ocean pout in or from this area. The area reopens at the beginning of Trimester 1 of fishing year 2023 on May 1, 2023.

If a vessel declared its trip through the Vessel Monitoring System (VMS) or the interactive voice response system, and crossed the VMS demarcation line prior to April 18, 2023, it may complete its trip within the White Hake Trimester TAC Area.

If the common pool fishery exceeds its annual sub-Allowable Catch Limit (sub-ACL) for a stock in the 2022 fishing year, the overage must be deducted from the common pool's sub-ACL for that stock for fishing year 2023. The fishing year 2022 sub-Allowable Catch Limit for white hake is 44,313 lb (20.1 mt). NMFS estimates that the common pool has caught 35,937 lb (16.3 mt) so far in fishing year 2022.

Weekly quota monitoring reports for the common pool fishery are on the Greater Atlantic Regional Fisheries Office website at: <https://www.greateratlantic.fisheries.noaa.gov/ro/fso/reports/h/nemultispecies.html>. NMFS will continue to monitor common pool catch through vessel trip reports, dealer-reported landings, VMS catch reports, and other available

information and, if necessary, will make additional adjustments to common pool management measures.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866. The Assistant Administrator for Fisheries, NOAA, finds good cause pursuant to 5 U.S.C. 553(b)(B) and 5 U.S.C. 553(d)(3) to waive prior notice and the opportunity for public comment and the 30-day delayed effectiveness period because it would be impracticable and contrary to the public interest.

Regulations require the closure of a trimester TAC area to the common pool fishery when 90 percent of the Trimester TAC for a stock has been caught. Updated catch information through March 21, 2023, only recently became available indicating that the common pool fishery is projected to have caught 90 percent of its Trimester 3 TAC for white hake. The time necessary to provide for prior notice and comment, and a 30-day delay in effectiveness, would prevent the immediate closure of the White Hake Trimester TAC Area. This would be contrary to the regulatory requirement and would increase the likelihood that the common pool fishery would exceed its annual quota of white hake. Fishermen expect these closures to occur in a timely way to prevent overages and their payback requirements. Any overage of the annual quota could be detrimental to this fish stock. Also, any overage would be deducted from common pool's quota for the next fishing year, which could cause negative economic impacts to the common pool fishery due to less catch being available to fishery participants. This could undermine conservation and management objectives of the Northeast Multispecies Fishery Management Plan.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 18, 2023.

Kelly Denit,

Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
