FOR FURTHER INFORMATION CONTACT: Kathleen Howington, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4371; email: Kathleen.Howington@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The

product of the Review Workshop is a summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and State and Federal agencies.

Items for discussion are as follows: Discuss any leftover data issues that were not cleared up during the data process, answer any questions that the analysts have, and introduce/discuss model development and model setup.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council office (see **ADDRESSES**) at least 10 business days prior to the meeting.

ACTION: Notice of solicitation.

SUMMARY: Notice is hereby given that ONMS will solicit applications to fill non-governmental seats on its 17 established national marine sanctuary advisory councils and the Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve Advisory Council (advisory councils), under the National Marine Sanctuaries Act and the Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve Executive Order, respectively. Note, the list of 18 established advisory councils in the Contact Information for Each Site section includes the advisory council established for the Proposed Lake Ontario National Marine Sanctuary and the Proposed Hudson Canyon National Marine Sanctuary. Vacant seats, including positions (*i.e.*, primary and alternate), for each of the advisory councils will be advertised differently at each site in accordance with the information provided in this notice. This notice contains web page links and contact information for each site, as well as additional resources on advisory council vacancies and the application process.

DATES: Please visit individual site web pages, or reach out to a site as identified in this notice's **SUPPLEMENTARY INFORMATION** section on Contact Information for Each Site, regarding the timing and advertisement of vacant seats, including positions (*i.e.*, primary or alternate), for each of the advisory councils. Applications will only be accepted in response to current, open vacancies and in accordance with the deadlines and instructions included on each site's website.

ADDRESSES: Vacancies and applications are specific to each site's advisory council. As such, questions about a specific council or vacancy, including questions about advisory council applications, should be directed to a site. Contact Information for Each Site is contained in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: For further information on a particular

advisory council or available seats, please contact the site as identified in this notice's **SUPPLEMENTARY INFORMATION** section on Contact Information for Each Site, below. For general inquiries related to this notice or ONMS advisory councils established pursuant to the National Marine Sanctuaries Act or Executive Order 13178, contact Sage Riddick, Office of National Marine Sanctuaries Protected Area Policy Division, sage.riddick@noaa.gov, or at 240-560-3365.

SUPPLEMENTARY INFORMATION: Section 315 of the National Marine Sanctuaries Act (NMSA) (16 U.S.C. 1445a) allows the Secretary of Commerce to establish advisory councils to advise and make recommendations regarding the designation and management of national marine sanctuaries. Executive Order 13178 similarly established a Coral Reef Ecosystem Reserve Council pursuant to the NMSA for the Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve. In this **SUPPLEMENTARY INFORMATION** section, NOAA provides details regarding the Office of National Marine Sanctuaries, the role of advisory councils, and contact information for each site.

Office of National Marine Sanctuaries (ONMS)

ONMS serves as the trustee for a network of underwater parks encompassing more than 620,000 square miles of marine and Great Lakes waters from Washington State to the Florida Keys, and from Lake Huron to American Samoa. The network includes a system of 15 national marine sanctuaries and Papahānaumokuākea and Rose Atoll marine national monuments. National marine sanctuaries protect our nation's most vital coastal and marine natural and cultural resources, and through active research, management, and public engagement, sustain healthy environments that are the foundation for thriving communities and stable economies.

One of the many ways ONMS ensures public participation in the designation and management of national marine sanctuaries is through the formation of advisory councils. Advisory councils are community-based advisory groups established to provide advice and recommendations to ONMS on issues including management, science, service, and stewardship; and to serve as liaisons between their constituents in the community and the site. Pursuant to section 315(a) of the National Marine Sanctuaries Act, 16 U.S.C. 1445A(a), advisory councils are exempt from the requirements of the Federal Advisory

Committee Act. Additional information on ONMS and its advisory councils can be found at <http://sanctuaries.noaa.gov>.

Advisory Council Membership

Under section 315 of the NMSA, advisory council members may be appointed from among: (1) Persons employed by federal or state agencies with expertise in management of natural resources; (2) members of relevant regional fishery management councils; and (3) representatives of local user groups, conservation and other public interest organizations, scientific organizations, educational organizations, or others interested in the protection and multiple use management of sanctuary resources. For the Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve Advisory Council, section 5(f) of Executive Order 13178 (as amended by Executive Order 13196) specifically identifies member and representative categories.

The charter for each advisory council defines the number and type of seats and positions on the council; however, as a general matter, available seats could include: Conservation, education, research, fishing, whale watching, diving and other recreational activities, boating and shipping, tourism, harbors and ports, maritime business, agriculture, maritime heritage, and citizen-at-large.

For each of the advisory councils, applicants are chosen based upon their particular experience in relation to the seat for which they are applying; community and professional affiliations; views regarding the protection and management of marine or Great Lakes resources; and possibly the length of residence in the area affected by the site. Applicants chosen as members or alternates should expect to serve two- or three-year terms, pursuant to the charter of the specific national marine sanctuary advisory council or Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve Advisory Council. More information on advisory council membership and processes, and materials related to the purpose, policies, and operational requirements for advisory councils can be found in the charter for a particular advisory council (http://sanctuaries.noaa.gov/management/ac/council_charters.html) and the *National Marine Sanctuary Advisory Council Implementation Handbook* (https://farallones.noaa.gov/manage/sac_handbook.html).
