## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–97647; File No. SR–ICC–2023–004]

### Self-Regulatory Organizations; ICE Clear Credit LLC; Order Approving Proposed Rule Change Relating to Clearance of Additional Credit Default Swap Contracts

June 5, 2023.

#### I. Introduction

On April 3, 2023, ICE Clear Credit LLC (“ICC”), filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),<sup>1</sup> and Rule 19b–4 thereunder,<sup>2</sup> a proposed rule change to provide for the clearance of Standard Subordinated European Insurance Corporate Single Name CDS contracts (“STSEIC Contracts”). The Proposed Rule Change was published for comment in the **Federal Register** on April 21, 2023.<sup>3</sup> The Commission has not received any comments on the Proposed Rule Change. For the reasons discussed below, the Commission is approving the Proposed Rule Change.

#### II. Description of the Proposed Rule Change

##### A. Background

ICC is registered with the Commission as a clearing agency for the purpose of clearing CDS contracts.<sup>4</sup> Chapter 26 of ICC's Clearing Rules covers the CDS contracts that ICC clears, with each subchapter of Chapter 26 defining the characteristics and Rules applicable to the various specific categories of CDS contracts that ICC clears. The purpose of the proposed rule change is to add a new subchapter to Chapter 26 to permit ICC to clear an additional contract type. Specifically, new Subchapter 26S would provide the basis for ICC to clear STSEIC Contracts.

New Subchapter 26S has nine associated Rule provisions, with each described further below. Overall, ICC based new Subchapter 26S on existing Subchapter 26G, which applies to Standard European Corporate Single Name contracts (“STEC Contracts”), because STSEIC Contracts and STEC Contracts have similar terms.

That said, new Subchapter 26S would differ from existing Subchapter 26G as needed to account for differences between the two types of contracts. For example, Subchapter 26S does not include several provisions that relate to Modified Modified Restructuring found in Subchapter 26G. This is the case because the market convention is that Modified Modified Restructuring does not apply to STSEIC Contracts, unlike STEC Contracts cleared under Subchapter 26G.<sup>5</sup> Additionally, Subchapter 26G includes references to 2003-Type CDS Contracts<sup>6</sup> as well as 2014-Type CDS<sup>7</sup> Contracts.<sup>8</sup> Subchapter 26S references 2014-Type Contracts only and eliminates unnecessary references to 2014 Type Contracts because ICC does not anticipate that any STSEIC Contract would incorporate the 2003 ISDA definitions.<sup>9</sup>

The remaining differences are discussed with each of the nine associated rule provisions below.

##### 1. Rule 26S–102 (Definitions)

New Rule 26S–102 would set out the defined terms used in Subchapter 26S. For example, Rule 26S–102 would define an STSEIC Contract as a CDS Contract in respect of any Eligible STSEIC Reference Entity having a combination of characteristics listed as eligible for such Eligible STSEIC Reference Entity in, and permitted by, the List of Eligible STSEIC Reference Entities. Eligible STSEIC Reference Entities would be defined as each particular Reference Entity included in the List of Eligible STSEIC Reference Entities (a list of eligible reference entities that ICE Clear Credit maintains on its website). Similarly, for each of those Eligible STSEIC Reference Entities, ICE Clear Credit would determine which of their obligations (such as bonds) are considered to be Eligible STSEIC Reference Obligations.

This section differs from its counterpart in Subchapter 26G in that it does not have a definition that corresponds to the definition of Eligible STEC Sector in Rule 26G–102. Rule 26G–102 lays out a number of permitted industrial sectors for STEC reference entities in STEC Contracts, such as energy and healthcare.<sup>10</sup> Subchapter

<sup>5</sup> *Id.* at 24648.

<sup>6</sup> A 2003-Type CDS Contract is a CDS Contract that incorporates the 2003 Credit Derivatives Definitions, as published by the International Swaps and Derivatives Association (“ISDA”).

<sup>7</sup> A 2014-Type CDS Contract is a CDS Contract incorporating the 2014 ISDA Credit Derivatives Definitions.
