

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2013–0437, to EPA online using www.regulations.gov (our preferred method), by email to a-and-r-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Lynn Sohacki, Compliance Division, Office of Transportation and Air Quality, U.S. Environmental Protection Agency, 2000 Traverwood, Ann Arbor, Michigan 48105; telephone number: 734–214–4851; fax number 734–214–4869; email address: sohacki.lynn@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through June 30, 2023. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on October 5, 2022 during a 60-day comment period (87 FR 60393). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: Under Section 206(a) of the Clean Air Act (42 U.S.C. 7521), on-highway engine and vehicle manufacturers may not legally introduce

their products into U.S. commerce unless EPA has certified that their production complies with applicable emission standards. Per section 207(a), original vehicle manufacturers must warrant that vehicles are free from defects in materials and workmanship that would cause the vehicles not to comply with emission regulations during their useful life. Section 207(a) directs EPA to provide certification to those manufacturers or builders of automotive aftermarket parts that demonstrate that the installation and use of their products will not cause failure of the engine or result in the vehicle not complying with emission standards. An aftermarket part is any part offered for sale for installation in or on a motor vehicle after such vehicle has left the vehicle manufacturer’s production line (40 CFR 85.2113(b)). Participation in the aftermarket certification program is voluntary. Due to the fact that EPA has received only two aftermarket part certification applications since 1989, the Agency does not expect to receive any applications in the next three years. The purpose of this ICR renewal is to preserve EPA’s authority to receive such an application in the event that one is submitted. Consequently, for the purposes of this information collection request, EPA has assumed that one manufacturer will apply for aftermarket part certification during the three-year period covered by this collection.

Aftermarket part manufacturers or builders (manufacturers) electing to participate conduct emission and durability testing as described in 40 CFR part 85, subpart V, and submit data about their products and testing procedures. Any information submitted to the Agency for which a claim of confidentiality is made is safeguarded according to policies set forth in CFR title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (see 40 CFR part 2).

Form Numbers: None.

Respondents/affected entities:

Manufacturers or builders of automotive aftermarket parts.

Respondent’s obligation to respond: Required to obtain or retain a benefit (Clean Air Act.)

Estimated number of respondents: 1 (total).

Frequency of response: On occasion.

Total estimated burden: 547 hours (per year). Burden is defined as 5 CFR 1320.03(b).

Total estimated cost: \$37,208 (per year), which includes \$1,955 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the total estimated respondent burden compared with the ICR currently approved by OMB.

Courtney Kerwin,

Director, Regulatory Support Division.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0790, OMB 3060–0859; FR ID 151041]

Information Collections Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection.

Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before August 28, 2023. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should

advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0790.

Title: Section 68.110 (b), Availability of Inside Wiring Information.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 200 respondents; 1,200 responses.

Estimated Time per Response: 1 hour.

Frequency of Response:

Recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Mandatory. Providers of wireline

telecommunications services that willfully or repeatedly fail to comply with this rule are subject to forfeitures under 47 CFR 1.80. Statutory authority for this collection of information is contained in 47 U.S.C. 151, 154, 201-205, 218, 220 and 405 of the Communications Act of 1934, as amended.

Total Annual Burden: 1,200 hours.

Total Annual Cost: \$5,000.

Needs and Uses: Section 68.110(b) requires that any available technical information concerning carrier-installed wiring on the customer's side of the demarcation point, including copies of existing schematic diagrams and service records, shall be provided by the telephone company upon request of the building owner or agent thereof. The provider of wireline telecommunications services may charge the building owner a reasonable fee for this service, which shall not exceed the cost involved in locating and copying the documents. In the alternative, the provider may make these documents available for review and copying by the building owner or his agent. In this case, the wireline telecommunications carrier may charge a reasonable fee, which shall not exceed the cost involved in making the documents available, and may also require the building owner or his agent to pay a deposit to guarantee the documents' return. The information is needed so that building owners may choose to contract with an installer of their choice on inside wiring maintenance and installation services to

modify existing wiring or assist with the installation of additional inside wiring.

OMB Control Number: 3060-0859.

Title: Suggested Guidelines for Petitions for Ruling Under Section 253 of the Communications Act of 1934, as amended.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities and State, local, or Tribal governments.

Number of Respondents and Responses: 24 respondents; 24 responses.

Estimated Time per Response: 63-125 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Voluntary. Statutory authority for this information collection is contained in 47 U.S.C. 253 of the Communications Act of 1934, as amended.

Total Annual Burden: 1,698 hours.

Total Annual Cost: No Cost.

Needs and Uses: The Commission will submit this extension to the OMB after this 60-day comment period in order to obtain the full three-year clearance from them. Although very few petitions for preemption under section 253 have been filed in the past few years, there is reason to believe that the current estimate is more likely to reflect future developments than a reduction in the number of estimated filings. The Commission published a Public Notice in November 1998 which established suggested guidelines for the filing of petitions for preemption pursuant to section 253 of the Communications Act of 1934, as amended, as well as suggested guidelines for the filing of comments opposing such requests for preemption. The Commission will use this information to resolve petitions for preemption of state or local statutes, regulations, or other state or local legal requirements that are alleged to prohibit or have the effect of prohibiting any entity from providing a telecommunications service. Section 253 of the Communications Act of 1934, as amended, which was added by the Telecommunications Act of 1996, requires the Commission, with certain important exceptions, to preempt (to the extent necessary) the enforcement of any state or local statute or regulation, or other state or local legal requirement that prohibits or has the effect of prohibiting any entity from providing any interstate or intrastate telecommunications service. The Commission's consideration of preemption under section 253 typically begins with the filing of a petition by an

aggrieved party. The Commission typically places such petitions on public notice and requests comment by interested parties. The Commission's decision is based on the public record, generally composed of the petition and comments. The Commission has considered a number of preemption items since the passage of the Telecommunications Act of 1996, and believes it is in the public interest to inform the public of the information necessary for full consideration of the issues likely to be involved in section 253 preemption proceedings. In order to render a timely and informed decision, the Commission expects petitioners and commenters to provide it with relevant information sufficient to describe the legal regime involved in the controversy and to provide the factual information necessary for a decision.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.
